Each class meets once a week for 10 weeks in Fall, Winter and Spring Sessions.

## Handwork & Machine Sewing Grades K-6

No matter your child’s age or ability, kids are patiently taught various age appropriate handwork skills such as knitting, crocheting, embroidery, embellishments and an introduction to machine sewing. Many different projects are completed during the year. As your child’s skills grow, so does the complexity of the projects.

## Fashion & Machine Sewing Grades 3-8

Kids will learn to machine sew while making fun, fashionable and on trend projects. They will learn practical skills that will last a lifetime all while having fun and feeling good about themselves and their accomplishments. Totally cool projects for today’s totally cool kids.

## Open Studio Grades 6-11

It is all about choice in this class designed especially for tweens and teens. During open studio time, kids will select a project, sew and embellish the way they want! Perfect class for our experienced machine sewers who are looking to choose what they will make; however, if you have no experience, we will help you choose projects that will be easy to master. Please bring in a pattern of something you would like to make or choose from one of our many patterns.

**2014-2015 Seasonal Workshops \$45/each 3:00-5:30pm**

Come and sample our programs with one of our workshops. One project will go home at the end of each workshop and different seasonally themed projects are offered each and every time. All supplies and materials included. No previous experience necessary. All projects are gender appropriate.
