BYRON BAY TEA CO

Spa Ordering Options

Our signature organic herbal tea range has been specially designed to have benefits to health with the themes of Energy, Calming, Digest, Immunity, Detox and so on. Formulated by Naturopath and Herbalist, Sarita Merlo, the range has been blended with natural and exotic ingredients such as vanilla bean, spices and berries. We believe this creates a unique and delicious flavour for your customers.

Having a tea on offer for your clients on entering a spa not only helps to prepare them for their treatment but also demonstrates an immediate duty of care to the client. It is such a simple and cost effective gesture that goes a long way.

The range has been designed for Spas to purchase the LARGE TIN in the initial purchase and then the REFILL BAG for subsequent orders.

If you would like to also offer the product for customer to take home, we would recommend stocking the BOX or TIN.

Energy
