

Woven Wire - Non-Climb 2" x 4" mesh

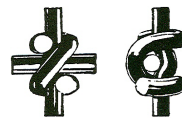

Description -

- Red Brand (Keystone Steel & Wire) and Bekaert products - made in USA
- Galvanized (Class 1) - 10 gauge top and bottom wires, 12-1/2 gauge filler wires
- Zinc Aluminum (ZA) - high strength 12-1/2 gauge horizontal wires, 14 gauge vertical wires
- Bezinal (ZA + black paint) - 12-1/2 gauge horizontal and vertical wires
- ZA finish: 95% zinc, 5% aluminum - lasts three times longer than Class 1 galvanized
- Bezinal finish - UV stabilized black paint over ZA - lasts longer than Class 3 galvanized
- Stiff knots securely hold horizontal line and one piece vertical stay wires together.
- Knots resist rust - will not hold water.
- Woven mesh gives fence flexibility allowing it to conform to uneven terrain.
- Galvanized - heavier gauge top and bottom wires add strength to fence.

Benefits -

- Black is less visible - will blend into background
- Smooth knots will not injure animals or people
- Long lasting - no welded spots to rust quickly
- Ideal for many different applications
- Heavy-duty multi-purpose fence
- Low maintenance

knot detail

Uses -

- Horse paddock fence
- Dog kennels and containment
- Parks and public areas
- Garden fence
- Emu and ostrich enclosures
