SKIN CANCER BUSINESS MANAGEMENT

ONLINE

LEARN MORE

This online workshop is designed to assist medical practitioners, medical business owners and practice managers with the set-up and management of a successful skin cancer clinic or the integration of skin cancer services into general practice. The knowledge acquired will help you maximise your efficiency in managing skin cancer in primary care. You will also gain valuable insights into how you can develop your business and grow your practice.

COURSE OBJECTIVES

Learn the fundamentals of setting up and running an efficient skin cancer service in the primary care environment.

ACCREDITATION

RACGP and ACRRM points pending.
Please see website for updates.

TOPICS COVERED

- Set-up and layout of a skin cancer facility
- Tools, equipment and systems required
- Daily workflow management
- Appointment book structure
- Training of support staff
- Medicare billing
- Medico-legal regulations

The Skin Cancer Business Management online workshop was very applicable for a new start-up clinic!

– Dr B. Wiese, British Columbia –

This was a great workshop! Professional, comprehensive and accurate, with excellent delivery and resources.

– Dr R. Mitchell, NSW –
