[EXPORTECH](#) is a comprehensive program designed for manufacturers to expand their global markets. The program brings together all of the elements to assist manufacturers in developing export plans that include assistance with logistics, distribution, country selection, fees, regulations, best products to export and much more.

[California Manufacturing Technology Consulting](#) (CMTC) works with a variety of partners to deliver this comprehensive training program with proven results. On average, participating manufacturers generate \$770,000 in new export sales.

### **Upcoming EXPORTECH Sessions:**

October 7, November 11, and December 9, 2014 in Claremont, CA.
