DID YOU KNOW?

The availability of transitional care services for seniors in our community has been missing for a long time. Now these services, coupled with state-of-the-art rehabilitation services will be available at Westminster Village. It's our commitment to providing the very best care.

"When our family needed interim care after a hospitalization in the Wilmington area, the best options here were unacceptable. I'm excited to know that should the need arise again, there will be an option dedicated to transitional care and state-of-the-art therapy services available to help. To have these services here, in Dover, will make a positive difference in the lives of many Dover seniors."

– *Herb Konowitz, Vice Chair*
Dover Interfaith Mission
