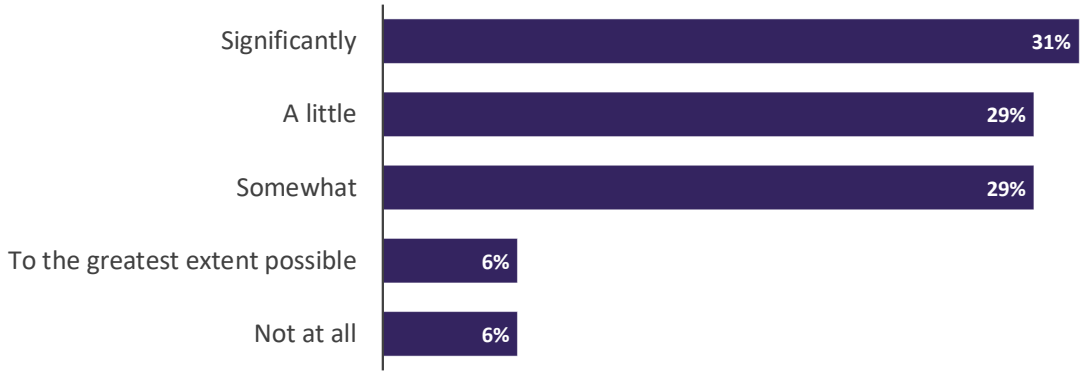
Poll results

28.03.2018

These poll results were taken from a recent webinar (which you can listen to here). Respondents include data management professionals across buy-side, sell-side, and asset servicing companies.

Q1 To what extent has your organisation innovated its data management processes?



Q2 What are the barriers to implementing innovation in data management at your organisation?

Q3 Which innovative technologies and solutions does your organisation favour for data management?
