ROOFING SYSTEMS

TRIAL BY FIRE

COMPARED SIDE-BY-SIDE

What to Consider:

- OVERALL RESISTANCE
- MAINTENANCE
- ADDITIONAL AGGREGATE
- INCREASED COSTS

BUR
- Poor Resistance
- High Maintenance
- Aggregate Required

MODIFIED BITUMEN
- Poor Resistance
- High Maintenance
- Aggregate Required

EPDM
- Poor Resistance
- Flame retardant version increases cost

TPO
- Poor Resistance
- Retardants difficult to add without affecting properties

PVC
- Great Resistance

Overall, a great flame retardant.

KEE
- Great Resistance

Flame retardants easily compound and inherent flame suppressant chlorine.

FiberTite® Seaman Corporation
