We work with:

Law Offices
Sole Practitioners
Legal Support Services
Corporate Legal Departments
(*and others*)

datamax

goVertical® legal

Legal Firms

In an information-intensive, data-driven legal world, leveraging technology to improve workflow and information access is paramount. Our technology portfolio is designed to improve communications with courts, enhance collaborative efforts with clients and opposing counsel, and create more effective ways of distributing and accessing information—ultimately providing the freedom to increase billable hours. ***Count on Datamax to maximize the technology that matters!***

Datamax can help you:

- simplify and automate e-discovery, e-filing and traditional document workflows to discover relevant information while reducing document review time,
- increase legal administration productivity through easy-to-use enhanced document and imaging workflow solutions,
- convert scanned images to a wide variety of PDF formats, including PDF/A for archiving and PDF Searchable for keyword searching to accelerate case preparation and performance,
- mitigate data security risks and guard against phishing attacks, ransomware with best security practices, *and*
- reduce expenses and drive a rapid return on technology investments through fully integrated document systems that ensure cost recovery.

Through relevant technology advisory and total solution deployment, we help legal organizations ***"go vertical"*** by maximizing their business processes, communications, and bottom line.

Advantages You'll Realize.

Workflow Management
Optimize productivity and reduce labor costs with customized and integrated workflows that combine multiple tasks into single processes. For maximum efficiency, legal documents can be routed automatically to any destination based on pre-defined rules.

Document/Client Security
Protect sensitive client information with strict adherence to the Sarbanes-Oaxley Act (SOX) and other compliance standards. Our devices set the standard for providing protection services to ensure client data is optimally secured.

Electronic Document Management
Increase productivity by automatically converting scanned images to editable documents, in multiple file formats, directly from an MFP device.

Automated Legal Tasks
Automate and access Bates stamping, redacting, and highlighting directly from an MFP control panel.

Cost Reduction and Management
Implement client charge-back and cost recovery solutions that are fully integrated to an MFP device.

Services We Offer.

Technology Consulting
Align important legal-related goals with technology through **Datamax Xpert**™ consulting. We can help you assess and improve how your current document and information technologies are supporting your core business requirements.

Network Management
Leverage comprehensive network services featuring **TechCare**® Managed IT Services, Cloud Services, Information Security Services, and **TechCare**® **University** User Training for IT specific initiatives—all supported by 24/7 **TechView**® remote help desk support.

Print Management
Optimize your print output through best-in-class print technology and the industry's most responsive approach to managed print services—**PrintCare**™. All supported 24/7 by **PrintView**™—remote access for printing and connectivity.
