

# Stainless Hose Racks

## Eliminate clutter and enhance safety

Proper hose storage is critical to maintain the working life of hose assemblies. Stainless Space™ Hose Racks are the perfect solution to organizing your sanitary hose assemblies. When used properly, Stainless Space™ Hose Racks ensure that each hose is stored in accordance with the manufacturer's recommendations.

All Hose Racks are constructed of electropolished stainless steel. Stationary units feature horizontal pegs allowing a convenient storage location for sanitary gaskets, clamps and adapters. The HSU-11, HSU-16, HSU-24 AND HSU-32 are designed for specific hose diameters. The unique arc design of the HSU-100 accommodates a multitude of hose assembly types and sizes.

Stainless Space™ Hose Racks keep hoses organized, off the floor and consistent with cGMP requirements. The reduced clutter and improved organization contribute to a safer, cleaner work environment and extended hose assembly life.

Stainless Space™ Hose Racks are the perfect solution to your hose organization needs!

## Features & Benefits

- **Compact designs for use in any clean environment.**
- **Extends hose working life and ensures 100% drainage.**
- **Eliminates clutter and enhances safety.**
- **Stores hoses, clamps gaskets and adapters in one convenient location.**
