

Exceptional products... for all of your
high purity transfer and sampling solution needs

Certificate of Compliance

Customer PO No.:

Part Number: **ICI-TA-XXXXX**

Lot Number:

Part Description:

Date of Manufacture:

Integra SO No.:

Quantity:

QUALITY SYSTEM

- ◆ This assembly was fabricated in an ISO 9001:2008 certified and FDA cGMP-compliant facility.
- ◆ This assembly was fabricated in a certified ISO Class 7 (10,000) cleanroom.

COMPLIANCE STANDARDS

- ◆ The material(s) used in this assembly have been tested in accordance with USP protocols and are found to comply with the requirements of USP <88> Class VI Plastics.

MATERIALS OF CONSTRUCTION

- ◆ The tubing material is STHT-C® platinum-cured silicone.
- ◆ The triclamp fittings are Kynar PVDF.
- ◆ The retainers are PVDF.

TUBING ASSEMBLY INSPECTION & TESTING

- ◆ Where applicable, the assembly has passed inspection and testing in accordance with Integra Companies' protocols.

ANIMAL ORIGIN STATEMENT

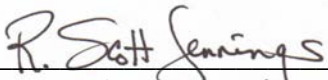

- ◆ Materials in this assembly are certified to be animal-derived component free (ADCF).

STORAGE & SHELF-LIFE

- ◆ Storage in original packaging, at ambient conditions and away from direct sunlight, is recommended.
- ◆ Recommended shelf life for gamma-irradiated product is two (2) years from the Date of Irradiation provided on the *Certificate of Processing*.

Backing certifications for assembly components are retained at Integra.

Certified By:

R. Scott Jennings, *Director of Quality*
