BRAVA SPANISH

Brava Spanish Tile evokes delightful visions of European Old World Tile. Reminiscent of structures showcasing Mission roof tile, this barrel tile comes in the traditional Terra Cotta, but is also available in multi-colored tile blends and aged tile coloring blends. The lightweight feature makes this double roman style tile a desirable choice as it does not requires additional, costly structural support and is easy to install. This environmentally friendly roof tile contains high quality recycled products, is extremely durable and colored throughout.

BRAVA SPANISH 16.5" x 13"

Developed from actual impressions of natural clay barrel tile creates an amazing genuine appearance. Authentic beauty, elegant design, superior performance and timeless styling allow for a roofline that creates a lasting effect.

BRAVA BOLD SLATE

Brava Bold Slate is the ideal replication of slate roofing. Brava's composite roofing product is an extremely attractive alternative to concrete tile or slate roofing systems. The revolutionary, multi colors provide a natural, architecturally elegant roofing system. It truly gives the distinctive impression of a custom roofing design. Brava's Bold Slate will rival any residential slate roof. With a striking 1" thick profile, and revolutionary multi-colored offering, Brava's Bold Slate not only replicates the most expensive slate, but with its lightweight design, it is easier to install and does not require the additional structural support needed for slate's extreme weight constrictions. All this and a Class 4 hail impact rating.

Brava Bold Slate is developed from actual impressions of natural slate to provide an amazing genuine appearance with embossed patterns. Authentic beauty, elegant design, superior performance and timeless styling allow for a roofline that creates a lasting effect

BRAVA BOLD SLATE 24" x 12"

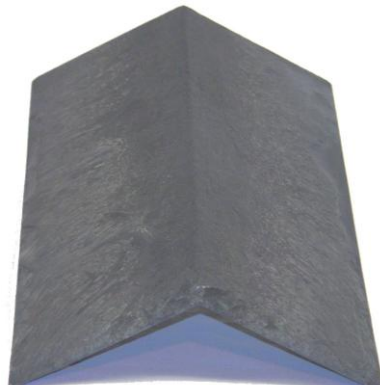

Starter: 14" Length x 16" Width

The cavity back starter is used to provide the proper cant at the eave line for the first row of Bold Slate.

Hip & Ridge: 16" Length x 6" x 5-5/8" Width

Hip/ridge trim allows for a professional finished look on hips and along the ridge. At least a three inch overlap should be maintained during installation.

Solid Tile: 22 7/8" \pm 1/8" Length x 12 1/8" \pm 1/8" Width

The solid tile accessory which is exclusive to Brava slate and shake products assures a realistic appearance at the gables and assists with easier installation for open valleys.

BRAVA SLATE

Brava Slate is designed to achieve the classic architectural look of slate roofing. Manufactured from recycled products, Brava Slate composite roofing product is easier to install than natural slate resulting in lower installation costs; and it is lighter in weight thus eliminating the need for costly additional structural support which is needed for a natural slate roof. The variety of solid and multi colors replicate quarried slate, providing a classic, architectural realistic appearance.

Brava Slate was developed from actual impressions of natural slate to provide an amazing genuine appearance with embossed patterns. Our Class C slate offers a more economical and lighter weight solution for those not requiring a Class A fire resistant roof covering. Authentic beauty, elegant design, superior performance and timeless styling allow for a roofline that creates a lasting effect.

BRAVA SLATE 18" x 12"

Starter: 10.5" Length x 12" \pm 1/8" Width

Starters will provide the proper cant at the eave line for the first row of slate.

Hip/Ridge: 16" Length x 6" x 5-5/8" Width

The hip/ridge trim allows for a professional finish for a beautiful roof. At least a three inch overlap is required for installation.

Solid Tile Accessory: 18" \pm 1/8" Length x 12 1/8" \pm 1/8" Width

The solid tile accessories provide the authentic appearance of slate at the gables, and assists in the installation of open valleys which can be labor intensive when using other composites with a honeycomb core.

BRAVA SHAKE

Replicating the beauty of natural wood, Brava Shake comes in multiple widths and thicknesses to achieve the aesthetics of shake roofing. The multi-colored option is ideal to get an aged or “weathered” look. Brava shakes offer Class C fire rating, and are hail resistant with a Class 4 rating. These ratings are the highest in the roofing industry and provide an excellent alternative roofing option for those seeking the character of cedar shake and need the assurance of a high quality, durable, tested product.

Brava Shake was developed from actual impressions of natural cedar shake to provide an amazing genuine hand split appearance with embossed patterns. Brava Shake varies in thicknesses ranging from 5/8" to 7/8" securing the look of real cedar shake. Authentic beauty, elegant design superior performance and timeless styling allow for a roofline that creates a lasting effect.
