Is for the **helping hand** to each valued patient and caregiver

Is for the **opportunity** home care and hospice provides patients and their families to live independently and receive care in their homes

Is for the **maternal** and child health options home care agencies also provide to help families in need

Is for the **extra** hours clinicians dedicate day in and day out to care for their patients

Is for the **clinical** expertise these men and women can provide to their patients

Is for the **advocates** that recognize the importance of home care and hospice and how important it is to protect as the aging population grows

Is for the contribution that home care makes to preventing **re-hospitalizations**

Is for the **electronic** medical records that home care and hospice providers are using to improve patient care and ensure a more efficient exchange of patient data among multiple providers

Is for the **holistic** approach taken to ensure that multiple disciplines and experts are coordinated for the best possible care of a single patient

Is for the **On-call** clinicians delivering care at all hours of the day and night knowing there are no "regular" office hours when it comes to their patients

Is for the **security** efforts demonstrated by these health care providers to protect their patient's personal data

Is for the **promise** of quality care these clinicians deliver

Is for the **individual** attention each patient enjoys

Is for the **compassion** of all caregivers who dedicate their time and attention to those who require extra tender loving care

Is for the **energy** that home care and hospice providers show each day that is often unmatched in the industry
