

Cost Profit Centers

• Centers are parts of the operation that will incur costs or make a profit

- Some examples are: John Deere Combine, Corn 2010, Cattle
- Can be service, production or consolidating
 - Service can be allocated to other centers
 - Production can be crop, breeding, feeding, group feeding
 - Consolidating is an intermediary allocation step between service and production centers
- Setup, Cost Profit Center

Chart of Accounts

Ledger accounts = chart of accounts

 a list of accounts that hold the transactions & activities of your business. Foundation of your accounting system that tracks cash, goods you buy to resell, money owed. Tracks the flow of money going in and out of your business

Bank Accounts = Asset Accounts Inventory Accounts= Asset Accounts Accounts Receivable= Asset Accounts Accounts Payable = Liability Accounts Accounts for goods and services= Expense Accounts Revenue= Income Accounts Owner Equity Accounts (see handout for example of chart of accounts)

- To get to your chart of accounts follow these steps:
 - Setup
 - Accounting
 - Ledger Accounts
- To add a ledger account:
 - Click "ADD"
- To edit an existing ledger account:
 - Highlight the account you want to edit
 - Click "CHANGE"

- What they do
 - Transfer value from one ledger account, center or division without recording a check or deposit
- When to use them
 - To record non-cash transactions such as transfer of grain from a crop to a livestock center
 - For double-entry accounting such as end-ofperiod adjustments to accrued expenses
 - To record transfers between bank accounts or interest or service charges on bank accounts
- Journal Entries vs. Adjustment Entries

al antrian must hala

Tracking Expenses paid for with line of credit or credit cards

- Set up a ledger account as:
 - Liability
 - Bank Account
- Entering expenses:
 - Write a "check"
 - Use the "Bank Account" for the line of credit
 - Select the correct ledger account, center, etc.
- Entering payments:
 - Using a check or journal entry
 - Payments will be negative amounts

Inventory Register

- Used to show Assets and offsetting accounts on the Balance Sheet
- Update as often as needed based on reporting frequency and market fluctuation
- Broken into 7 categories:
 - Crops & Feed
 - Livestock
 - Breeding Stock
 - Machinery
 - Land
 - Bldg & Impr

Inventory Register (cont.)

- If using inventory register use expense ledger account when purchasing new inventory items instead of an asset ledger account
- To show up on balance sheet must have an inventory item, such as Cows, then a line under Cows with date, qty, price, etc
- Will report off of the most recent entry into the register for each inventory item

*Trial Balance*Used to find entries in double-entry system Summarizes by ledger account If accounts are in balance net change will be zero Great report to run at the end of each month

Balance Sheet

- Can select ending month and divisions or percent of division
- Used to calculate net worth for whole entity or selected divisions
- Usually ran quarterly or yearly

Month End Tasks

- Clear checks
- Check Register/Reconciliation
- Trial Balance

Accounting Budgets

- Can the past years entries and budget for the upcoming year
- Take actual from the past year and edit
 - Manual change budget amounts
 - Change by percentage
- Budget out different scenarios to help in planning an decision making

Trouble Shooting

- User Defined Report
 - Run using "Print Undefined entries", top box on left hand side
 - Will show where you have errors
- Trial Balance
 - Run to check that net change is zero
 - If its not zero start from day one and run one day at a time to see where it gets out of balance
- Recover Bad Data
