UNIVERSITY OF CALIFORNIA

Size: 200,000 Square Feet

Location: California

Challenge *Aged PVC & Hypalon® Roofs*

- Weathered and checking Hypalon.
- Advanced weathering in birdbath areas.
- Deteriorated wall flashings.

Solution *AcryShield® Restoration System*

- No more UV degradation.
- Additional water resistance.
- Maintains a cool roof surface.

The University of California benefits from extended service life from their Cool Roof single-ply membrane by implementing a coating maintenance program.
