WASHOE PROGRESSIVE CARE CENTER

Size: 56,000 Square Feet

Location: Reno, Nevada

Challenge *Improperly Installed Roof*

- Constant leaks.
- Poor drainage and ponding water.
- Lack of good insulation.
- Significant roof traffic.
- Improperly flashed walls.

Solution *AcryShield® SPF Roofing System*

- Seamless membrane eliminated leaks.
- Custom sloping and better drainage.
- Cooler, more comfortable building.
- Impressive impact resistance.
- Integrated waterproofing of walls with roof.

The Washoe Progressive Care Center highlights the use of sustainable SPF roofs for new construction and tear-off projects.
