IBM

Size: 30,000 Square Feet

Location: San Jose, California

Challenge *Aging BUR Gravel Roofs*

- Constant leaks.
- Saturated roofing felts.
- Some water ponding.

Solution *AcryShield® SPF Roofing System*

- No ponding water.
- No costly and risky tear-off and business disruptions.
- Added insulation and energy efficiency.
- Watertight sustainable roofing system.

IBM finally solved their vexing leak problems with an AcryShield SPF Roofing System that avoided a risky tear-off during the fall months.
