HEARPHONE EXHIBIT SPEAKERS

HEARPHONE
w/standard coil cord (6')
w/armored cable (3')
w/armored cable (4')

H-100C
H-100AC36
H-100AC48

The Hearphone exhibit speaker is the most attractive listening device for exhibit audio from audio message repeaters, VCR's or other audio equipment. Hand held along side or completely surrounding the ear the Hearphone delivers voice messages with excellent quality.

Molded of white polyethylene and with no mechanical fastenings the Hearphone is durable and easy to clean with most detergent cleaners.

With an 8 ohm source up to 12 Hearphones can be hooked up in series parallel arrangements without loss of fidelity. A single Hearphone works well with 8, 12 or 16 ohm amplifier outputs. Spade lugs at the end of the cords rather than modular jacks simplify wiring to the audio source.

An armored cord is available on special order.

Dimensions: 5 1/2" x 3 1/2" diameter.

Weight: 6 oz. with cord.

Coil cord: 6' long, two conductor tinsel, vinyl coated.

Termination: Spade lugs, optional 1/4" plug.

Speaker: Paper diaphragm, 100 ohm impedance
Response from 400 Hz. to 10 kHz.

HEARPHONE HOLDER

HEARPHONE Holder

HH-400

The Hearphone Holder is made of solid stainless steel with a tough black nylon mounting plate.
