

Specialty Technical Publishers Launches Volume 3 of the Popular eBook Series on Safe Hazardous Chemical Management

Introducing the Third and Final eBook in the Series Offering Audit and Compliance Guidance for Environmental, Health & Safety (EHS) Requirements Involving Hazardous Chemicals

([PRWEB](#)) July 15, 2014 -- Specialty Technical Publishers, premier North American publisher of [audit, compliance and risk solutions](#), today announced the release of the final volume in its three-part series of complimentary eBooks to help organizations manage chemicals safely.

Organizations that deal with hazardous chemicals must increasingly fulfill a bewildering assortment of responsibilities. There are dozens of federal and state provisions that must be complied with. Together this three-part series provides a comprehensive reference for organizations that acquire and use chemicals. Written by compliance expert and attorney, Jon Elliott, these volumes are designed to help those organizations meet their compliance obligations.

The [third and final eBook](#) explains the regulations triggered when organizations acquire and use chemicals and includes detailed information on:

- Hazardous Waste Management Requirements
- Air Quality Protection Requirements
- Water Quality Protection

The series of eBooks includes handy self-assessment checklists to help organizations measure their levels of compliance with these often complex regulations.

“This completes the trilogy of eBooks which will provide the environmental professional with a concise, handy tool to help ensure compliance and protection of our citizens and our environment. I urge you to avail yourself of the wealth of knowledge and expertise we have provided.” - Steve Britten, Acting-President of Specialty Technical Publishers (STP).

More about the eBook series:

- Completely complimentary resource
- Written for EHS compliance professionals
- Authored by compliance expert Jon Elliott
- Includes user-friendly self-assessment checklists to aid efficient audit and compliance
