

## **Specialty Technical Publishers (STP) and AECOM Launch 13 New Jurisdiction-Specific Environmental, Health, & Safety (EHS) Protocols**

*Extending Their Global Environmental Health & Safety Reach to Help Auditors in 13 New Jurisdictions*

Specialty Technical Publishers, in partnership with AECOM, have announced the launch of 13 new protocols to help companies more effectively manage global environmental, health, and safety (EHS) risk and compliance.

The [13 new protocols](#) focus on the following countries and regions:

- \* Australia: Capital Territory, Northern Territory, Queensland, South Australia, Western Australia
- \* Canada: British Columbia, Nova Scotia
- \* Hong Kong
- \* Israel
- \* New Zealand
- \* Switzerland
- \* Taiwan
- \* United Arab Emirates: National, Abu Dhabi, Dubai

Written specifically for the experienced EHS Auditor, these new abridged protocols cover the same regulatory scope and audit topics as the existing range of [over 25 jurisdictions](#).

The partnership's EHS protocols can be accessed through a web-based portal or by integrating with a company's own software. With custom templates and advanced functionality features, auditors can easily track audit findings and manage data over time. In addition, STP's formatting is compatible with leading risk management and sustainability platform providers.

These new protocols make it simple for an auditor to determine the regulatory requirements that apply to a specific business operation or practice in that particular jurisdiction.

Steve Britten, Acting President of STP, explained "STP's very successful partnership with AECOM is focused on increasing global EHS reach and these 13 new protocols are part of this dynamic strategy. The aim is to keep increasing our coverage to help auditors everywhere."
