

Specialty Technical Publishers Launches Volume 2 of the Popular eBook Series on Safe Hazardous Chemical Management

Introducing the Second eBook in the Series Offering Audit and Compliance Guidance for Environmental, Health & Safety (EHS) Requirements Involving Hazardous Chemicals

North Vancouver, B.C., Canada ([PRWEB](#)) February 18, 2014 -- Specialty Technical Publishers, premier North American publisher of [audit, compliance and risk solutions](#), today announced the release of the second in its three-part series of complimentary eBooks to help organizations manage chemicals safely.

Organizations that deal with hazardous chemicals must increasingly fulfill a bewildering assortment of responsibilities. There are dozens of federal and state provisions that must be complied with. Together this series provides a comprehensive reference for organizations that acquire and use chemicals. Written by compliance expert and attorney, Jon Elliott, this detailed, three-part eBook series is designed to help those organizations meet their compliance obligations.

The second eBook, [Volume Two](#), explains the regulations triggered when organizations acquire and use chemicals and includes detailed information on:

- Fire and Building Codes.
- Hazardous Material Transportation.
- Facility Security Requirements.
- Underground Storage Tank (UST) System Requirements.

The series of eBooks includes handy self-assessment checklists to help organizations measure their levels of compliance with these often complex regulations.

“The reaction to our first eBook in this series was very positive and we are excited to offer EH&S compliance professionals the next installment. The information is presented in a concise, easy-to-understand format aimed at saving valuable time. The dual concept of public safety and professional education is our prime aim, and by the time we release the third eBook in the spring we will have created a valuable tool that can be used by the many industries and institutions dealing with hazardous chemicals.” Steve Britten, Acting-President of Specialty Technical Publishers (STP).

The third and final volume, which covers Hazardous Waste Management, Air Quality Protection and Water Quality Protection, will be released in Spring 2014.

More about the eBook series:

- Completely complimentary resource
- Written for EHS compliance professionals
- Authored by compliance expert Jon Elliott
- Includes user-friendly self-assessment checklists to aid efficient audit and compliance
