Avalara

Avalara helps businesses of all sizes achieve compliance with sales tax, excise tax, and other transactional tax requirements by delivering comprehensive, automated, cloud-based solutions that are fast, accurate, and easy to use. Avalara's end-to-end suite of solutions are designed to effectively manage complicated and burdensome tax compliance obligations imposed by state, local, and other taxing authorities in the United States and internationally.

Avalara offers hundreds of pre-built connectors into leading accounting, ERP, ecommerce and other business applications. The company processes millions of tax transactions for customers and free users every day, files hundreds of thousands of transactional tax returns per year, and manages millions of exemption certificates and other compliance related documents. Founded in 2004 and privately-held, Avalara's venture capital investors include Battery Ventures, Sageview Capital, Arthur Ventures, and other institutional and individual investors. Avalara employs more than 700 people at its headquarters on Bainbridge Island, WA and in offices across the U.S. and in London, England and Pune, India. More information at: www.avalara.com

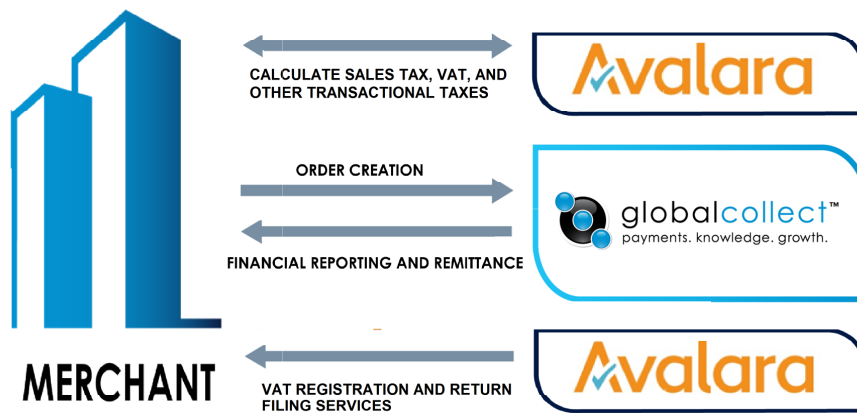

GlobalCollect

GlobalCollect is the most knowledgeable global Payment Service Provider in the world, processing more than US\$14 billion in international e-commerce payments per year for more than 500 of the world's most recognized e-commerce brands in the digital goods and services, travel, retail and video gaming industries, among many others. With nearly two decades of payments experience, we enable our clients to efficiently and securely accept payments from more than 170 countries in more than 170 currencies, using in excess of 150 local payment methods including all major credit and debit cards, direct

debits, bank transfers, real-time bank transfers, eWallets, cash at outlets, prepaid methods, checks, and invoices.

The Integration

Central point is the financial administration software for VAT calculation and reservation. Avalara delivers integrations in most packages. Depending on the chosen model the VAT can be added to the gross amount submitted to Global Collect for capturing the transaction.

Benefits

- Simple, automated management of your complex VAT scenarios
- Faster entry into new international markets and faster product rollouts
- Extension of investments in existing business systems (CRM, ERP, etc.)
- Country and territory specialist monitor VAT ruling changes
- International reach
