

GlobalCollect Payment Solution for ISO Travel Solutions

Combining ISO Travel Solutions and GlobalCollect creates a global e-commerce solution offering its customer an integrated payment solution through the ISO booking platform. This provides shorter time-to-market and increases revenue opportunities for its global customer.

ISO Travel Solutions

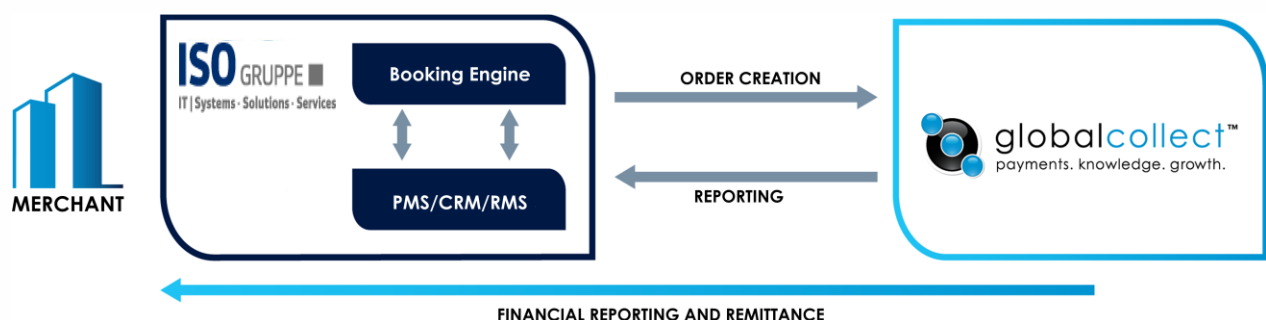

ISO Travel Solutions has been offering software solutions and consultancy services to the tourism industry and tour operations for more than 30 years. We also maintain long-standing project partnership with key players in the market. We therefore have the profound knowledge and skills required to implement or optimize the IT landscape of tourism companies of all sizes, whether domestic or abroad.

GlobalCollect

GlobalCollect is the most knowledgeable global Payment Service Provider in the world, processing more than US\$14 billion in international e-commerce payments per year for more than 500 of the world's most recognized e-commerce brands in the digital goods and services, travel, retail and video gaming industries, among many others. With nearly two decades of payments experience, we enable our clients to efficiently and securely accept payments from more than 170 countries in more than 170 currencies, using in excess of 150 local payment methods including all major credit and debit cards, direct debits, bank transfers, real-time bank transfers, eWallets, cash at outlets, prepaid methods, checks, and invoices.

This gives our customers unparalleled coverage, especially in high-growth regions like Latin America, where GlobalCollect acquired regional PSP Sub1 in 2012. Our robust and redundant systems guarantee our customers high availability and reliability. GlobalCollect's business intelligence tools and more than 400 payments experts help our clients elevate their payment strategies to become a strategic asset to their companies.

ISO Travel Solutions Connection to GlobalCollect

Within the ISO Engine, a bridge to GlobalCollect is integrated.

This includes:

- Card processing and authorization
- Fraud Screening (3DS, Red, CVV)
- (Partial) refunding of payments
- Reporting (failed, processed)

The plug-in explained

The ISO Travel Solutions integration has been designed, build, tested and certified based on the best practices. The checkout process is enriched with a payment product choice, and processed via GlobalCollect's network of acquirers and payment product providers. This includes capture payments, installments as well as fraud and error handling.

The payment status is automatically updated into the order and shown in the payment web console.
