

# GlobalCollect Payment Solution for Switchfly

**Combining Switchfly and GlobalCollect creates a global e-commerce solution to offer its customers an integrated payment solution through the Switchfly Suite. Providing shorter time-to-market and increasing revenue opportunities for its global customers.**

## Switchfly

Switchfly delivers a unique value proposition for our travel and loyalty clients – a single technology platform to power multiple products under multiple brands deployed across multiple countries.

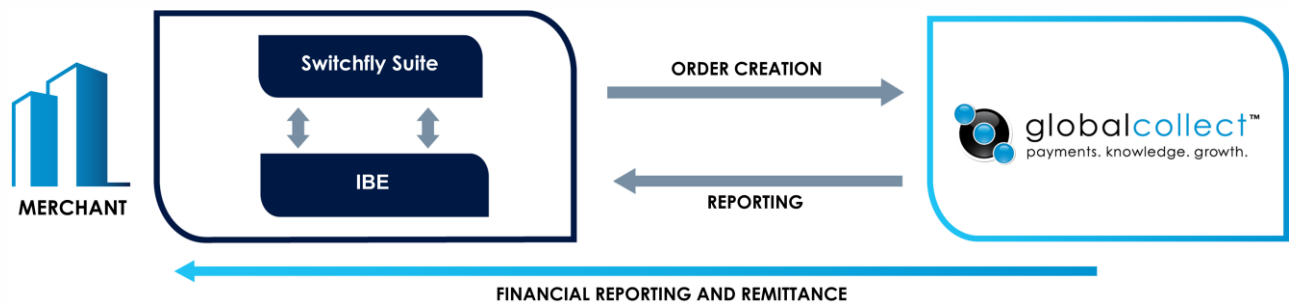

The platform's structure allows us to leverage shared elements – such as customer segmentation, pricing, and preferred suppliers – across multiple products. Complicated and overlapping global technology needs are met by a single solution that can be managed from a central location. By sharing information across product lines, Switchfly optimizes conversion rates while minimizing redundant functionality, thus reducing operating complexity, costs and time to market. More importantly, we create a continuous customer experience across all products and touch points.

## GlobalCollect

GlobalCollect is the most knowledgeable global Payment Service Provider in the world, processing more than US\$14 billion in international e-commerce payments per year for more than 500 of the world's most recognized e-commerce brands in the digital goods and services, travel, retail and video gaming industries, among many others. With nearly two decades of payments experience, we enable our clients to efficiently and securely accept payments from more than 170 countries in more than 170 currencies, using in excess of 150 local payment methods including all major credit and debit cards, direct debits, bank transfers, real-time bank transfers, eWallets, cash at outlets, prepaid methods, checks, and invoices.

This gives our customers unparalleled coverage, especially in high-growth regions like Latin America, where GlobalCollect acquired regional PSP Sub1 in 2012. Our robust and redundant systems guarantee our customers high availability and reliability. GlobalCollect's business intelligence tools and more than 400 payments experts help our clients elevate their payment strategies to become a strategic asset to their companies.

## Switchfly Connection to GlobalCollect

Within the Switchfly Suite, a bridge to GlobalCollect is integrated.

### The plug-in explained

The Switchfly integration has been designed, build, tested and certified based on the best practices. The checkout process is enriched with a payment product choice, and processed via GlobalCollect network of acquirers and payment product providers. This includes capture payments, instalments, fraud handling and error handling.

The payment status is automatically updated into the order, and shown in the payment web console.

### Integrated functionality with Switchfly Suite Platform
