

Payment solutions for Travel Platform **Sabre**

By combining the hospitality solutions of Sabre, and the strength of Ingenico ePayments, pre-payments during the online reservation has become easy and direct available, all across the globe. Completely integrated and ready to use.

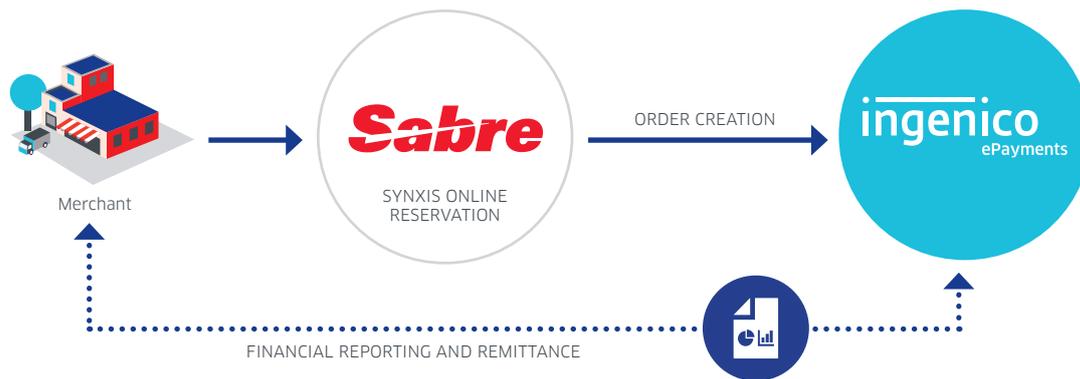

About Sabre Hospitality Solutions

Sabre Hospitality Solutions leverages the strength and breath of Sabre's technology, marketing and distribution tools to bring hotel suppliers a global end-to-end solution. Sabre Hospitality Solutions enables hoteliers to benefit from the streamlined integration of these innovative and comprehensive tools to help them increase revenues, identify savings and improve customer service.

The complete Sabre Hospitality Solutions include:

- Marketing strategies for online and offline merchandizing.
- Website design & development.
- Distribution to all channels using the industry-leading SynXis Central Reservation System and the world's largest Global Distribution System.
- Consulting from a team who are experts in their fields.
- Ensuring the highest return on investment.

Simple integration

A single pre-built set of API's connects you to a wide range of global and local payment methods and acquirers.

Cost saving

The pre-built integration will save time since it provides a proven and certified solution. Furthermore it will empower customer service teams with integrated reporting and chargeback management.

Secure

The connection is based on you not having to be PCI secure. Besides that, it contains holistic fraud tool and 3-D Secure.

Support & updates

You will take advantage of the knowledge of both Ingenico ePayments and Sabre Hospitality to help you upgrade to newer version and add payment methods.

The integration

Sabre's SynXis Enterprise Platform is connected to Ingenico ePayments for the prepaid reservation handling. With a complete integrated interface to for the consumer from reservation, up to the payment is completed. The integration is available for both hosted reservation page, as the API based SynXis interface. The connection is certified and tested by both Ingenico ePayments and Sabre Hospitality Solutions. Within the SynXis Enterprise Platform, the behaviour of the payment products and the wanted mix between pre-paid and post-paid can be configured. The connection is PCI DSS certified, and secured.
