

GlobalCollect Payment Solution for Fastbooking

Combining Fastbooking and GlobalCollect creates a global e-commerce solution to offer its customers an integrated payment solution through the Fastbooking platform. Providing shorter time-to-market and increasing revenue opportunities for its global customer.

Fastbooking

Fastbooking is a pioneer in e-marketing and Internet-based technologies for independent hotels and hotel groups. Our goal has always been to increase hotel direct online bookings through cutting edge solutions that simplify online distribution management, increase visibility and conversion rates, and unique technologies to deliver the booking conditions that visitors want – the right information and just enough selection to insure a successful reservation.

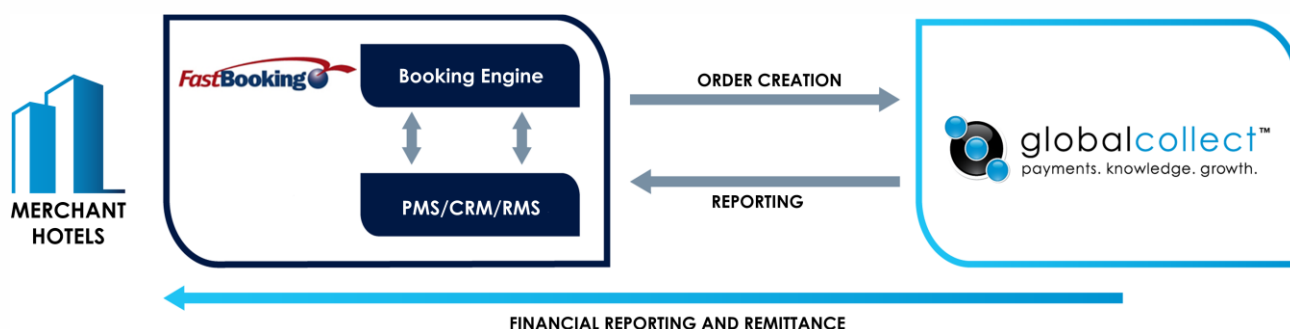

FastBooking FG chain code provides an easy-to-use GDS/IDS interface that is integrated with the FastBooking Engine. Now room rates and availability are managed from a single point. FastBooking FG chain code, our proprietary, next generation service, provides seamless connectivity to the four largest GDS operators and 2000 IDS including the 70 major IDS (Internet hotel marketing sites such as Expedia®, Hotels.com®, Travelocity®, etc).

GlobalCollect

GlobalCollect is the most knowledgeable global Payment Service Provider in the world, processing more than US\$14 billion in international e-commerce payments per year for more than 500 of the world's most recognized e-commerce brands in the digital goods and services, travel, retail and video gaming industries, among many others. With nearly two decades of payments experience, we enable our clients to efficiently and securely accept payments from more than 170 countries in more than 170 currencies, using in excess of 150 local payment methods including all major credit and debit cards, direct debits, bank transfers, real-time bank transfers, eWallets, cash at outlets, prepaid methods, checks, and invoices.

This gives our customers unparalleled coverage, especially in high-growth regions like Latin America, where GlobalCollect acquired regional PSP Sub1 in 2012. Our robust and redundant systems guarantee our customers high availability and reliability. GlobalCollect's business intelligence tools and more than 400 payments experts help our clients elevate their payment strategies to become a strategic asset to their companies.

Fastbooking Connection to GlobalCollect

Within the Fastbooking Engine, a bridge to GlobalCollect is integrated.

This includes:

- Card processing and authorization
- Fraud screening (3DS)
- Reporting (failed, processed, reversed, refunded)

The plug-in explained

The Fastbooking integration has been designed, build, tested and certified based on the best practices. The checkout process is enriched with a payment product choice, and processed via GlobalCollect network of acquirers and payment product providers. This includes capture payment, instalments, fraud handling and error handling.

The payment status is automatically updated into the order, and shown in the payment web console.
