

How to Declare Compliance

for

Your Products

How Your OEM's Declare Compliance!

Original Equipment Manufacturers (OEM's) are constantly demanding full material disclosures from parts suppliers. That is how most OEM's declare compliance for their finished product.

Are you a supplier to an OEM?

- Full Disclosure on Hazardous Substances (FMDs)
- Declarations of Conformity (DoCs)
- Certificates of Conformity (CoCs)
- Verify RoHS or REACH Requirements

What You Need To

- Substances in Materials
- Material Declarations (if any)
- Proof of Compliance (Testing & Standards)

Know To be Compliant

- Compliance Audits
- How to React to OEM's Demands
- Supplying Distributors with Compliance Data on Parts

Did You know?

Electrical/Electronic and Chemical Products to the EU must be compliant to WEEE, RoHS and REACH Requirements?

How We Can Help?

- ✚ Risk assessment of materials
- ✚ Identifying potential high risk materials requiring testing
- ✚ Assist in validating DOCs and CoCs.

TÜV Rheinland's Green Compliance Solution

- ✚ R & D : Green design analysis and support
- ✚ Testing & Inspection of Raw Materials, Products & Components
- ✚ Process & Management: Auditing & Certification
- ✚ Global Market Access
