- Celebratory wine & cheese

Problems or questions, please see Jasmyne or Registration

Acetylon Pharmaceuticals

This Harvard spinout company uses CDD Vault to manage both academic-industry and China CRO collaborations. After becoming a customer in 2009, they have grown to a dozen CDD Vault users presently, all while filing for an IND for their HDAC inhibitor and raising \$27M in a Series-B financing in the meantime.

Acetylon Pharmaceuticals and Celgene Corporation Announce an Exclusive Strategic Collaboration to Advance the Science of Epigenetics

Strategic Collaboration Includes Option for Celgene to Acquire Acetylon

8:20	Collaborative Workflow: Basic and Advanced Use Cases of CDD Vault <i>Charlie Weatherall & Anna Spektor</i>
9:10	Morning Sessions- moderated by Sylvia Ernst
9:15	The Rockefeller University Compound Screening Library <i>J. Fraser Glickman (Rockefeller University)</i>
9:40	Recent Progress in De-Orphanization of Nuclear Receptors <i>Ruo Steensma (Orphagen)</i>
10:05	Morning Break - located in the Foyer and Exhibition room
10:35	Large small molecules in a Small large molecule world <i>Leanna Staben (Genentech)</i>
11:00	Linking the Molecular Structure of Medicines to their Biological Effects <i>Bob Volkmann (Systamedic & Mnemosyne Pharmaceuticals)</i>
11:25	Panel: Externalized Research - What Makes a Good Partnership? Wisdom from Experts Who've "Been There - Done That"
11:50	Lunch - boxed lunches in the Foyer and Exhibition room

2 Big Pharmas with 25 Organizations in Single, Secure MM4TB-CDD Vault®
