

## Demand More ... We Deliver it.

Assure eServices is a business-oriented and technology-based solutions and services company. We work with organizations to identify business goals and design the business process and technical solutions to meet their ever evolving and increasingly demanding needs.

We are focused on delivering innovative results along with tangible, measurable benefits to customers. Assure eServices intends to develop long term relationship with customers by consistently delivering high quality, cost-effective and responsive services from Any-Shore.

At Assure eServices, we possess expertise in Business Intelligence, Data Warehousing, e-Reporting, Web Application development, Application Integration, Maintenance and the like. Assure eServices provides services to Financial, Insurance, Hospitality, Telecommunication, Retail, Manufacturing and other industries.

Founded in 2002, Assure eServices is a privately held corporation headquartered in Burlington, MA and has its off-shore development centre in Chennai, India.

### What differentiates us from our competitors ...

**Thrive to Exceed Expectations. That is our philosophy.**

We understand that organizations demand more performance, reliability and functionality to meet their business needs. We consistently address these needs by delivering eminent solutions on time, on budget in a cost-effective way.

This unique approach ensures that we achieve the results and successfully complete the project. Our Proven processes and methodologies were developed, field-tested and refined over the years.

### What can customers expect from us ...

**Result. We are committed to deliver maximum value to our customers**

#### Customer Value Proposition

- Intellectual property and confidentiality protection
- Well-defined systems, processes and methodologies
- Effective communication and transparency throughout the life cycle of the project
- Versatility to handle evolving business requirements
- Tailoring solutions to fit customer needs
- Proven Any-shore execution and Delivery model
- Skilled, Dedicated and Committed Resources
- Scalable & Highly secured Infrastructure and staffing matrix
- Fast ramp-up on projects with cross training and recruitment
- Direct access to a large of pool of resources with the right skills, expertise and experience
- 24x7 Service availability

#### Do you need a Flexible, Creative off-shore outsourcing partner?

Our state of the art off-shore development centre is situated in Chennai, India, enable us to meet the growing needs of our customers and strengthen our commitment for best-in-class services to our customers through highly skilled resources, secured infrastructure and superior global connectivity.

We share our partner's risks and gains as we collaborate with them to transform their business processes into competitive tools in an accelerated time frame.

Beyond off-shore outsourcing, Assure eServices works towards transforming off-shore outsourcing as a program, that redefines the way business works through Extended Development Centre (XDC). XDC offers organizations to have their own extension of development team which functions from our scalable off-shore development centre. This program allows organizations to have a complete control over the project, processes and a dedicated development team without incurring the infrastructure and administrative hassles. Taking advantages of time differences, organizations would have around-the-clock productive team, specialized in their business domain and technology area.

Needless to say, the improved performance translates into tangible benefits in this increasingly competitive market place.

#### The Bottom Line is ...

Deliver the results what customer needs. That's where Assure eServices stands out, exceptionally responsive.
