

Color By Lindsay

Interior 1

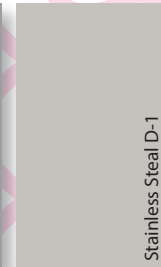

New World is actually the color of my office, and I still would love to use it in my home. The color is very soothing.

I love red kitchens. If you feel the color is too bold, use accent pieces to bring more color into the room. Don't be afraid to go bold!

Exterior 1

Nantucket and Cape Cod are my favorite escapes, so I had to present a scheme that is reminiscent of the shingled cape homes.

My favorite exterior scheme! Use Bulfinch Blue as the main color and add White Heat for a clean trim. Concord Grape is used for the front door.
