BETA**brite**® Window Displays

Adaptive's full line of Betabrite Window Displays brings the attention grabbing features of an outdoor LED display right into your window. If code or cost restrictions have your hands tied, then the Betabrite Window Display is the perfect fit to provide the advertising punch you are looking for. Here are some of the exciting features available on these new models.

BETAbrite® Window Displays

- RGB or Monochrome Red options
- 10mm pixel pitch
- Available in 6 different sizes to fit common window widths
- RGB models consist of 1 red/1 green/1 blue led per pixel
- Monochrome Red models consist of 1 red led per pixel
- Programmed with intuitive Betabrite XL software
- Manually adjustable brightness via the Betabrite XL software allows for the flexibility to use these as ultra-bright indoor displays
- All units include software, 50ft Ethernet cable, and 115VAC line cord
- Optional wireless kit available to connect your display to an existing LAN
- One-Year Limited Warranty

“Your sign was very effective in my eyes. The colors were very vivid and popped off from the display from quite a distance. The overall sales in the categories featured improved including coffee sales and candy sales. I would definitely install these units in additional stores moving forward. This sign has been more effective than some of the other media outlets we have tried.”

- Jeff Stueber, Store Manager
Korneli's Express
