## Sabrina Burnett, *Vice President*

Sabrina Burnett is a skilled leader in health management processes and solutions-based planning and execution. Sabrina has over 20 years of professional experience in physician practice and medical billing company management, specifically around revenue cycle and health system operations. She has extensive operational experience with credentialing, billing and collections, practice management, and assisting billing companies and medical groups in improving their financial performance.

Recent speeches include:

- Maximizing Financial Performance of Employed Physicians
- Provider Enrollment- Cost savings in out-sourced model
- Clinical Integration- Network Participation Management
- The High Cost of Physician Onboarding: 7 Tactics to Minimize Losses

Sabrina regularly authors articles for national healthcare industry publications on subjects related to transformations in healthcare. Recently published articles include:

- Centralized Credentialing Creates Staffing Efficiencies, Prevents Billing Losses
- Benefits of an Outsourced Managed Care Partner
- Long Term Post-Acute Contracting/Alignment w ACO, etc.
- Taking the Leap to Value Based Contracting

# Health Directions | Executive Bios

As a national healthcare consulting firm, Health Directions focuses on improving the financial, operational and strategic performance of medical groups and their affiliated hospital partners.

Health Directions supports its clients in the development of clinical integration programs, accountable care organizations, and other population health solutions.

With offices in Chicago, Illinois, and Austin, Texas, Health Directions delivers a national perspective to regional provider organizations. Our diverse clientele include hospitals and health systems as well as independent physician group practices, employed medical groups, and academic faculty plans.

Our work in four, distinct practice areas delivers measurable results through a lead-to-support model for our clients:

- Population Health Strategy
- Health IT Implementation & Optimization
- Revenue Cycle Management
- Provider Practice Management
