Hi Everyone,

I am passing on some information I have been very pleased with. I was initially satisfied but wanted to see how things progressed. I can tell you now, I'M A BELIEVER!

Remember the dinner meeting we had when we were looking into a parent company, when we brought in Denise to speak with us. Well, I had her come and review our homeowners and car insurance. Her company is a private company that deals with different insurance companies so they can find the best coverage for the best money. She is extremely knowledgeable and honest. By going through her we were able to save \$600-800/year on our 3 cars and home. And it was for better coverage!!
