HUDSON VALLEY ENERGY UPDATE

AGRICULTURE RELATED

25 facilities like yours in the Hudson Valley who upgraded their lighting

- Saved an average of 16,064 kWh
- Saved an average of \$2,088 per year
- Received an average of \$3,041 in incentives
- Have project paybacks of only 10 to 12 months

Since May of 2012, Hudson Valley businesses have saved over **21,217,069 kilowatt hours** by switching to new, more energy efficient lighting.

That's the same as:

• TAKING 3,119 CARS OFF THE ROAD

• POWERING 2,241 HOMES FOR ONE YEAR

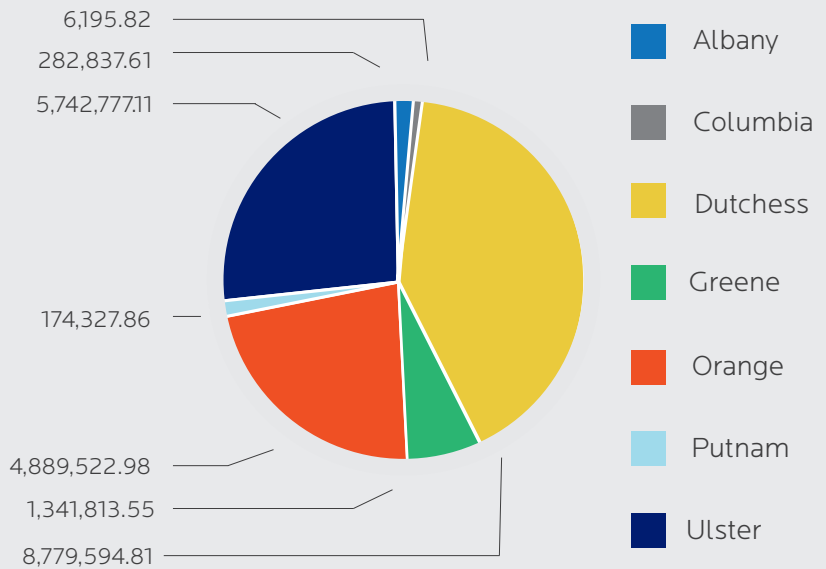

• PLANTING 383,839 TREES

Those same businesses have saved over \$2.5 million on their monthly power bills.

That's a lot of money to put towards new equipment, advertising, staff or even a much-needed vacation.

Energy efficiency pays off in the Hudson Valley with Central Hudson's Business Lighting Program.
