ELECTROtorque TLC with KL703 LED Motor Master Series

ELECTROtorque TLC System

Featuring the new KL703 brushless electric motor for ALL your high-speed, low-speed and torque control endocontic needs. Endo operation is available with a push of a button - no more searching and set up of a separate endo motor. Performs exact rotary endo procedures safely with torque control, auto-reverse and cellular optic advantages. Audible beep and flashing light notifies operator of automatic auto-reverse when preselected endo torque limit is reached. Remote mountable faceplate for convenient mounting options and easy to access controls. One of the world's shortest and lightest electric motors. Superior power & torque. Unique brushless motor (no brushes to exchange - no downtime). Quieter than brush motors. Water spray can be adjusted at motor. Integrated light and coolant. Unit can be calibrated to existing air pressure for optimized performance.

SONICflex KaVo Hygiene 360°

SONICflex 2008 L / 2003 L

Your KaVo SONICflex is the most powerful airscaler of its class. The handpiece with a wide range of uses. It supports your efforts with adjustable performance levels, for every indication - strong and precise.

- Safe preparation of the canal entrance, with direct view when using a microscope
- Simplified, subsequent canal preparation
