

# KaVo Electric Systems

## Innovation Changes Everything

- Superior Ergonomics – 30% Lighter and 25% shorter KL703 motor\*
- Easy to Use with Plug-n-Prep Technology
- SAFEdrive – Intelligence at Hand

### KL703 Short Motor

- Introducing the 4th Generation of KaVo electric motors – the KL703 which is 30% lighter and 25% shorter than market leading electrics. The KL703 features an exclusive field replaceable MULTI LED and water spray regulation.
- The lighter and shorter KL703 offers better ergonomics due to less weight.
- The KL703 is fully sterilizable making it easy to use and maintain.
- The KL703 motor is available on our upgraded ELECTROtorque TLC and ELECTROtorque Plus.

## ELECTROtorque – Plus with KL703 Short Motor

- Now with exciting, innovative features like KL703 short motor, MULTI LED, Automatic Calibration and SAFEdrive
- Field replaceable MULTI LED for superior illumination
- Plug-n-Prep Technology – Unit features automatic calibration to compensate for air pressure variability in the operatory.
- Two programmable speed settings and with forward/reverse speed adjustment.
- Water spray can be adjusted at motor.
- Motor speed range 100–40,000 rpm (with various attachments 2–200,000 rpm) and with Motor torque of 3 Ncm.
- Small, easy to install control box.
- 3-year warranty (includes motor, tubing and control box).

## ELECTROtorque – TLC with KL703 Short Motor

- The ELECTROtorque – TLC (Torque Limit Control) with KL703 short motor meets all your high-speed, low-speed and torque control endodontic needs.
- Now with New exciting and innovative features like KL703 short motor, MULTI LED, Automatic Calibration and SAFEdrive
- Endo operation is now available with a push of a button – no more searching and set up of a separate endo motor. Performs exact rotary endo procedures safely with torque control, auto-reverse and cellular optic advantages.
- Remote mountable faceplate for convenient mounting options and easy to access controls. Motor speed range 100–40,000 rpm (with various attachments 2–200,000 rpm).
- Endodontic torque 0.4 – 8.0 Ncm. Motor torque 3 Ncm. Motor is sterilizable. 3-year warranty (includes motor, tubing and control box).
- Water spray can be adjusted at motor.
- Plug-n-Prep Technology – Unit features automatic calibration to compensate for air pressure variability in the operatory.

Item	Description	Part #
ELECTROtorque TLC with KL703 Short Motor	All-in-one ELECTROtorque Torque Limit Control System with KL703 short motor for high-speed, low-speed and Endo needs	1003.5840
ELECTROtorque Plus	ELECTROtorque system with KL703 short motor with forward/reverse speed adjustment	1002.5015
E-Type Adapter	Adapter for use with INTRAmatic Low-Speed and surgical attachments	0411.7981
COMFORTdrive Full Operatory Package	Includes (3) COMFORTdrive 200 XDR Handpieces, (1) COMFORTtronic control module & power supply, and (1) COMFORTbase coupling and tubing	1007.4682
Adapter for COMFORTdrive	For use with COMFORTdrive electric hanpiece	1005.1707
QUATTROcare Plus Spray	For cleaning and care of instruments – air motors in the KaVo QUATTROcare plus	1005.4524
QUATTROcare Plus® Maintenance System	Automatic Handpiece Maintenance and Purging System	1008.3805
