

# Reading Club

Ages: 5-18  
Boys and Girls

The focus of the program is to encourage participants to read socially. Our goal is to create excitement about reading, introducing the participants to appropriate reading level books, and creating fun reading opportunities. Participants are encouraged to read in several ways: as a group, with a partner, with a beginner, on their own, and for an audience. Kids are encouraged to share their opinions about the books they read and contribute to a reading display.
