FREE Noah Shooting Clinics offered in select areas

Seeing is believing. With this in mind Noah offers FREE Shooting Clinics in select areas. Please visit <http://www.noahbasketball.com> for more information.

Clinics last approximately 90-minutes and include shooting time on Noah for up to 24 players.

Topics include:

- *Shot Analysis*
- *Characteristics of a Great Shooter*
- *Shot Alignment • Shot Distance*
 - *Arc • Release Point*
- *Finding Your Correct Arc*
- *Muscle Memory Training*
- *Video Analysis*

Max Hooper, CA

Before Noah: 39% 3-PT
After Noah: 45% 3-PT

Jaclyn Bisordi, CA

Before Noah: 25% 3-PT
After Noah: 47% 3-PT

Casey Dean, TX

Before Noah: 53.5% FT
After Noah: 78% FT

"... I was amazed (as were our parents and players) at all this system can measure to help our players become better shooters. In the 90-minute clinic, I saw our players improve immediately at things we have tried to get them to do. The system gives them something measureable, something visual, and something audible to help them improve their skills. I can't wait to see the improvement in our kids as we use our Noah!!"

David Wood, Head Boys Coach

West Lafayette High School, West Lafayette, IN

Master Shooting The Noah Way DVD

See Noah in action and learn how Noah can impact your team's success.

Noah's FREE Online Fundraiser

www.noahbasketball.com/givemeashot

Noah's FREE online fundraiser offers your team the opportunity to accept donations online towards the purchase of your Noah Select Shooting System. The program is simple; there is no charge to the school, and no selling.

Participation is simple. Call 1-888 TRY NOAH or e-mail noah@noahbasketball.com and request your FREE Noah Fundraising Kit.

Step One: The coach requests to participate. Noah then sends a free fundraising kit with materials for 50 players.

Step Two: Players, coaches, parents and supporters get to work telling potential donors about Noah and directing them to www.noahbasketball.com

Step Three: Donors visit the website and make contributions towards your school's purchase of a Noah Select Shooting System.

Noah Offers Finance Plan

Pay half of the purchase price and take delivery of your new Noah Select Shooting System. The other half plus a \$200 one-time, finance fee is due within 12-months of the invoice date. Combine the finance plan with Noah's online fundraising program and your Noah is on the way.

See the shot. Hear the shot. Repeat the shot.

For the first time in the history of the game Noah™ makes this possible.

See the perfect shot.
Hear the perfect shot.
Practice the perfect shot -- and shooting percentages increase, guaranteed. The Noah™ Select Shooting System aligns simply on the sideline and provides objective feedback for every shot taken. Players self-correct, practice the right shot and scoring percentages improve.

See the perfect shot: Noah™ Vision tracks and records each shot taken. Players, for the first time ever, see their shot from release point to basket using Noah™ Video and Arc Plot.

Hear the perfect shot:

Noah™ Voice announces the angle of the arc with each shot taken. If the player's optimal scoring arc is 44 degrees, and the shot was announced at 41 degrees, the player knows the shot was too flat.

Practice the perfect shot:

When you know better, you do better. Once a player understands what the perfect shot looks like and sounds like, they begin to build muscle memory. Repetition and reinforcement increase shot consistency and shooting percentages increase.

“We use Noah because it works.”
Don Meyer, Head Coach Northern State University

"I strongly encourage every parent who has a child playing basketball to take the time to host a Noah Shooting clinic at their school. The clinic included interactive use of a Noah machine and a detailed explanation of shooting mechanics and muscle memory. This is a must see product if you and your child are serious about becoming a better shooter."

Rich Kleczynski, St. Agnes Academy, Houston , TX
Father of Lauren Kleczynski a Master I Level Shooter

"Noah has proven to be a unique tool that acts similarly to an extra coach on our staff."

Chris Dial, Head Boys Coach, New Braunfels High School, New Braunfels, TX

"We have really noticed a difference in the consistency of the shooting of those who have utilized the Noah on a regular basis this summer! The girls love the immediate feedback and as a coach I still have a lot of input with respect to their arc. The record feature allows us to show our athletes any bad habits they have while they are using Noah. I highly recommend it!"

Jeff Hollinger, Head Girls Basketball Coach, St. Agnes Academy, Houston, TX

"Noah, in a short amount of time, has improved our team and individual shooting. The most important thing to me is that our players are much more confident when shooting the ball. They are confident because they have put in the work on Noah and they are getting the results. My favorite aspect about Noah is the ease of use. I can set it up in the mornings or afternoons and the kids are able to use it without me being in the gym. We now have kids competing to see who can get the most sessions in on the Noah."

Steve Smith, Head Men's Basketball Coach, Granbury High School
Former Division One Assistant Basketball Coach at TCU
