

# MedicsDocAssistant EHR for Behavioral Health: Special Features for the Outpatient Psychiatry Practice

MedicsDocAssistant EHR for Behavioral Health's ability to handle the needs of the outpatient psychiatry practice is exceptional.

In addition to the general features and capabilities needed by psychiatry practices as described in "MedicsDocAssistant EHR for Behavioral Health," the following is a listing of capabilities with specific interest to outpatient psychiatry practices, also available within the system:

- The system comes with pre-customized Intake and comprehensive medical management functionality.
- Special emphasis is placed on efficient documentation of Treatment Plans and Progress Notes.
- Psychiatric Evaluation Note with a Mental Status Examination complies with an outpatient psychiatric practice's documentation requirements.
- The system's Clinical Note capability operates on a SOAP note format to document clinical visits while capturing and tracking the information required for Meaningful Use compliance.
- The Reporting capability tracks various compliance requirements and Outcomes measures.

These capabilities, along with the system's overall features for BH, make it the ideal system for any outpatient psychiatry practice.
