YES Shop Management

Maintenance Tracking

Our maintenance screen can be an important part of making a sale and getting customers in your shop on a regular basis. This can also connect to the marketing manager to send customers reminders.

Service Needed
 Select services to put on the service order by pressing space bar or double-clicking on them.

Routine maintenance will let you know of any maintenance that is due or has not been done yet. This information can easily be carried over to a ticket.

From the maintenance screen, we can choose an item to drop on a ticket. As long as the customer had the service previously, the system automatically know the parts and labor for this job.

Recommended services tracks previously recommended work and can easily be dropped onto a ticket when the customer chooses to have the repair work done.
