

GE Healthcare AgileTrac Integration

GE Healthcare has integrated RF Code's active RFID readers and active RFID asset tags into their premier healthcare management solution called AgileTrac. This integration enables AgileTrac to fully leverage RF Code's real-time location information in healthcare environments.

GE Healthcare Overview

GE Healthcare provides transformational medical technologies and services that are shaping a new age of patient care. Expertise in medical imaging and information technologies, medical diagnostics, patient monitoring systems, performance improvement, drug discovery, and biopharmaceutical manufacturing technologies is helping clinicians around the world re-imagine new ways to predict, diagnose, inform and treat disease, so their patients can live their lives to the fullest. GE Healthcare's broad range of products and services enable healthcare providers to better diagnose and treat cancer, heart disease, neurological diseases, and other conditions earlier.

AgileTrac from GE Healthcare is a family of software products that enables hospital staff to make smart decisions at every point of care — leading to better quality of care and better business outcomes. This comprehensive, flexible system uses Real-time Location System (RTLS) technology to track people, processes and mobile medical assets throughout the healthcare enterprise. Up-to-the-minute data helps inform staff decisions to help streamline care delivery, manage resources and improve the patient experience.

Integration Details

AgileTrac communicates directly to RF Code's active RFID readers enabling it to consume all information concerning asset tag locations, movements, and status changes. AgileTrac's robust workflow engine can then utilize the asset tag information in a variety of ways such as:

Configurable workflows
Status-based alerts
Movement based alerts
Inventory reports

The entire AgileTrac family of products leverage the RF Code integration enabling healthcare centers to save money and improve patient care:

- AgileTrac Asset Management
- AgileTrac Bed Management
- AgileTrac Patient Flow
- AgileTrac Emergency Department
- AgileTrac Surgical Services
