Pinnacle College (North Campus-Rancho Cordova)
Current Campus Safety and Security Procedures
Campus Crime Statistics: 2009, 2010, 2011

Campus Setting

Pinnacle College is committed to providing all students, faculty, staff, and guests a safe environment conducive to learning. The campus is located at 11050 White Rock Road, Suite 150, Rancho Cordova, CA 95670 in a light industrial neighborhood: the building is secure, and monitored remotely by a professional security agency.

Notice of Procedure

To provide a healthy and secure training environment, Pinnacle College encourages prompt and accurate reporting of all crimes to school authorities and the appropriate law enforcement agencies. To report a crime in progress or an emergency, dial 9-1-1. Please report any crime or hazard to your safety or that of a fellow student, employee, or guest to school authorities immediately. In case there is an emergency situation involving robbery, aggravated assault, arson, burglary, motor vehicle theft, manslaughter, rape or murder, and alcohol and drug related violations, including use, sale, possession, and underage drinking, Pinnacle College encourages prompt reporting to the school President, Sal Younis, or the Associate Executive Director, Janey Grover. The school will work closely with State and local police agencies involving emergency situations and reportable crimes.

Your safety on campus is vitally important to us. The key to a safe and secure environment is cooperation. By working together, students, faculty and staff members can learn more about safety awareness. As part of our security process, we will provide you with safety tips and procedures to explain how an individual can better protect themselves, and to try to help prevent individuals from being victims of crime. We have information programs and referrals available to students and employees about crime prevention, campus disciplinary action for alcohol or drug related violations, weapons possession, awareness of rape, acquaintance rape, and other sex offenses through the issuance of awareness pamphlets/brochures. Information concerning registered sex offenders can be obtained by the Department of Public Safety. Moreover, the Sex Offender Identification Line number is (900) 448-3000.

Contact Numbers

Emergency: 9-1-1

Pinnacle College Administration: Sal Younis, President (916) 366-3431; Janey Grover, Associate Executive Director (916) 520-2506

Rancho Cordova Police Department: (916) 875-9600

Emergency Response

Upon a significant campus emergency involving an immediate threat to public safety, the school will notify, in person, students and employees of the dangerous situation. Additionally, as of August 1, 2010, Pinnacle College has recently acquired the capability to notify students/employees via text messaging, emails, and meetings of a potential dangerous situation and instructions on how to decrease their exposure to the threat. This new automated urgent alert messaging system is made available through Campus Management (portal system). Using this system, emergency messages and protective action recommendations can be quickly sent via text messaging and electronic mail addresses. Enrollment in this emergency communication system is available to all Pinnacle staff, faculty, and students. This system is completely voluntary and the emergency contact information is maintained and updated only by the registered user. Students/Employees are automatically enrolled when they activate their username and password into the Portal System. The institution will determine if there is a tangible, credible, and imminent threat warranting an actual emergency. The institution will determine which students, employees, and corresponding contacts necessary to notify. As such, the Associate Executive Director is responsible for carrying out this process. Finally, content and the initiation of the emergency notification will be determined based on the nature of the particular emergency. In addition to notifying the campus community of any significant emergencies posing a threat to public safety, the institution will also disseminate emergency information to the larger community by alerting local law enforcement agencies, corresponding State, County, and/or Federal agencies, if applicable, and the Property Management and Security Office of The Alhambra. Pinnacle College is committed to the safety and security of the community and will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

Evacuation Response Procedures

The school has developed an evacuation plan in case of emergencies—and the plan, including the emergency response notification system, will be tested once per calendar year. When a fire alarms sound or P.A. directions are given, please follow the below evacuation plan:

1. Go directly to the nearest exit.
2. DO NOT USE ELEVATORS.
3. DO NOT RUN.
4. As you leave, close the doors.
5. Listen for and heed directions given by Floor Wardens, Building Staff and The Fire Department.
6. Stay together if possible until you get to your designated meeting point.

To assist in an evacuation, the school has assigned JR Thompson, Program Director, and Janey Grover, Associate Executive Director, as the school's main Floor Wardens. The school will utilize senior instructors as "alternate" Floor Wardens to fill in for an off duty main floor warden. Once an alarm or Public Address System has sounded, floor wardens will:

1. Report to a predetermined place (preferably between each others work stations) to determine if all Floor Wardens and Alternates assigned are present on the floor at the time of the drill and alarm.
2. Appoint one alternate (if not available, one area occupant) to the position of Traffic Monitor and have the individual immediately report to your area's primary exit door.
3. Quickly search any "closed" locations to ensure that **ALL** persons are aware that the alarm has sounded.
4. **Search all offices and classrooms.** Follow a predetermined route and search each room.
 - a.) If office is clear, move to the next office, closing and marking door "Clear."
 - b.) If you encounter anyone during your search, direct that individual to your area's primary exit door.
 - c.) When you have completed your search, you should then report to your primary exit door.
5. Inquire as to the number of persons ready to move and take a head count.
 - a.) Assist in keeping the waiting occupants calm and quiet.
 - b.) Keep waiting occupants in a single line as they exit out of primary door

For Your Information

For the most recent three year period, the following cases of crimes and security violations have been made to the campus or the local police:

Number of Incidents

·Murder.....	0
·Manslaughter.....	0
·Rape.....	0
