

experiencing patagonia,

with its awe-inspiring nature, intense weather, and magnificent flora and fauna, is what Patagonia Camp tours offer. Our experienced staff of guides will find the best way to provide unforgettable day trips, according to the needs of each group, and adjusting to the unexpected, a characteristic of Patagonia.

From the secluded Patagonia Camp location you will have the opportunity to live **exclusive adventures** within the nearby tranquility and comfort of your yurt. Just choose: fishing, treks through beautiful trails and forests, hikes to breathtaking waterfalls ...this sign will lead you!

See next the list of available excursions...

- ❖ **Route distance:** 18 km
- ❖ **Initial altitude:** 120 masl
- ❖ **Maximum altitude:** 870 masl
- ❖ **Aproximate duration:** 8 hours
- ❖ **Difficulty:** High

A famous, highly demanding excursion. After crossing *the Asencio River* we will walk uphill around 2.5 km until we reach “El Paso de los Vientos” pass about 480 meters above sea level.

There we have a beautiful panoramic view of the Pampa, lakes to the south and of the Asencio Valley running in a northeastern direction at the bottom of the ravine.

From there we will descend to the Refugio Chileno shelter (420 masl) following another crossing of the Asencio River. Up to that point vegetation is that of the pre-Andean scrubland bioclimatic; from there vegetation changes completely to Lenga tree forest. We will climb gently through this forest for about 3.5 km until we reach the Torres del Paine moraine at just below 600 masl. A final push of around 45 minutes of continuous climbing will get us to the Torres Base at 870 masl.

During its last stage our trek takes us along the boundary between Magellanic forest and Andean desert bioclimatic regions.

The main fauna we will observe are birds belonging to the bioclimatic habitats mentioned above, as well as condors, mountain eagles, caracaras and other birds of prey.

- ❖ **Route distance:** 8 km
- ❖ **Initial altitude:** 229 masl
- ❖ **Maximum altitude:** 275 masl
- ❖ **Approximate duration:** 8 hours
- ❖ **Difficulty:** Low

A route running around the southern side of the Paine Massif takes us to Laguna Azul, a lagoon located in the Park's northeastern area. The route allows us to enjoy several perspectives of the Massif from the many viewing spots where we will stop along the way.

Once we have arrived at Laguna Azul we have a simple, practically no slope hike, along a trail bordering its northern shore and leading to Paine Lake. A nearly 4 km hike on this trail affords full views at all times of the Paine Massif with its famous three Torres del Paine peaks.

PORTERÍA SARMIENTO- PORTERÍA LAGUNA AMARGA

- ❖ **Route distance:** 8.5 km
- ❖ **Initial altitude:** 170 masl
- ❖ **Maximum altitude:** 330 masl
- ❖ **Approximate duration:** 3 hours
- ❖ **Difficulty:** Moderate

A medium-difficulty excursion, very interesting both from botanical point of view – the route runs across one of the Park's most extended bioclimatic provinces, the pre-Andean xerophile scrubland, here practically untouched – as well as for its fauna, as guanacos, ñandus, grey foxes and other animals live in this area, all hunted by their predator the puma. We will be able to get close to many of these species and find the hunting tracks left by the puma and other predator animals.

We will also have the opportunity of visiting an area with prehistoric cave paintings of the Pre-Tehuelche period, dated around 6,000-6,500 years old.

- ❖ **Route distance:** 2 kms
- ❖ **Initial altitude:** 90 masl
- ❖ **Maximum altitude:** 110 masl
- ❖ **Approximate duration:** 1 hour and 30 minutes up to 2 hours
- ❖ **Difficulty:** Low

Low difficulty excursion, which allows you to watch the boats crossing the crystalline and majestic Lake Pehoé, while appreciating beautiful changing colors as daylight moves on.

From here you can watch the impressive power of Salto Grande, a 15 mts. high waterfall that drains Lake Nordenskjold and Paine River into Lake Pehoé.

The combination of an overwhelming scenery, the pristine colors, and the roaring of the waterfall will surely force you to take a sharp intake of breath, while feeling all the natural energy displayed, and enjoying the Paine massif in the background.

- ❖ **Route distance:** 4 km
- ❖ **Initial altitude:** 70 masl
- ❖ **Maximum altitude:** 250 masl
- ❖ **Approximate duration:** 3 hours
- ❖ **Difficulty:** Moderate

Following a path that starts on Lake Pehoé shore you will hike up to Sierra del Toro, from where you can enjoy one of the best views around the park.

The trail allows visitors to appreciate the local vegetation (Nothofagus trees, but also low-lying steppe), some micro-wildlife, as well as the beauty of nearby condors soaring over you

You will have a privileged view of Lake Nordenskjöld, the Torres Del Paine, the French Valley, and the Patagonian Andes.

Do consider always that wind will be a steady companion in any Patagonian adventure.

- ❖ **Route distance:** 7 km
- ❖ **Initial altitude:** 60 masl
- ❖ **Maximum altitude:** 600 masl
- ❖ **Approximate duration:** 3 hours
- ❖ **Difficulty:** High

This excursion leads us to a privileged viewpoint located on the northeast face of the Ferrier Mountain, which affords an excellent panoramic view of the Paine Massif, many lakes and the Grey and Pingo Glaciers.

A steady climb of about 2 hours will take us to 550 meters above sea level. In addition to the spectacular view we can enjoy the beautiful Lenga forest, sighting of various birds and animals and if we're lucky, the huemul (southern Andes deer). We descend along the same trail to reach Grey Entry, the starting and final excursion point, in about one hour.

- ❖ **Route distance:** 5,5 km
- ❖ **Initial altitude:** 59 masl
- ❖ **Maximum altitude:** 75 masl
- ❖ **Approximate duration:** 2 hours to 2 hours and 30 minutes
- ❖ **Difficulty:** Low

An easy excursion that let us visit in a short period of time three completely different environments: a mature Lenga tree forest (belonging to the Magellanic deciduos forest bioclimatic province); the beach at the far end of Lake Grey and next to the Grey River's origin and to the Pingo River's estuary and a small peninsula with abundant vegetation, belonging to the pre-Andean mesophilic scrubland biocliamtic.

The Grey Entry is our excursion's starting point. During the excursion route we will first observe forest birds such as Magellanic woodpeckers and cachañas; we will see icebergs from the Grey Glacier adrift on Lake Grey beach. From a high point on the peninsula at the end of the beach we have a spectacular view of Grey Glacier and its surroundings.

- ❖ **Route distance:** 2 km
- ❖ **Initial altitude:** 25 masl
- ❖ **Maximum altitude:** 80 masl
- ❖ **Approximate duration:** 1 hour to 1 hour 30 minutes
- ❖ **Difficulty:** Low

A simple excursion takes us to privileged viewpoints. From the first one we will observe the southern horizon with Lake Toro, Paine River estuary and Serrano River origin dominating the picture. From the second viewpoint we see the northern horizon and the Paine Massif in all its splendor.

Vegetation seen on this excursion belongs to the pre-Andean bioclimatic, principally mesophilic, although some of it is also xerophilic. Throughout the excursion there will be viewings of birds belonging to these bioclimatic.

MIRADOR GREY- VALLE DEL RÍO SERRANO

- ❖ **Route distance:** 10 km
- ❖ **Initial altitude:** 275 masl
- ❖ **Maximum altitude:** 425 masl
- ❖ **Approximate duration:** 4 hours to 5 hours
- ❖ **Difficulty:** Moderate/High

This exclusive Patagonia Camp trail begins at Mirador de Grey, and continues through hills of the northern end of Cordillera Arturo Prat. The hike leads you from Toro Lake to the beautiful Serrano River Valley.

The trek passes through pristine, almost undisturbed, environments, that are part of private land only accessible to Patagonia Camp guests. You will be able to appreciate the superb landscapes of the Torres del Paine National Park (Toro Lake, Paine massif, Serrano River Valley, and surrounding mountains) from a different perspective than the usual, along with small hidden lakes as well as ancient Lenga woods.

- ❖ **Route distance:** 13 km
- ❖ **Initial altitude:** 26 masl
- ❖ **Maximum altitude:** 242 masl
- ❖ **Approximate duration:** 5 hours
- ❖ **Difficulty:** Moderate

This route is practically exclusive to Patagonia Camp, and as it is situated outside the park there is almost no one on the route. However, the excursion is highly recommended as it offers views both of the Paine Massif and Lakes Maravilla, Porteño and Toro throughout the entire route.

We will come across different types of vegetation, from pre-Andean scrubland (mainly mesophilic) to subtropical forest of coigue, fuinque and coicopihue trees, passing through remains of lenga tree forest. There are also very big willow trees, brought to the area by the first colonist. Birds and animals are equally interesting.

LAGO DEL TORO WATERFALL

- ❖ **Route distance:** 2km
- ❖ **Initial altitude:** 26 masl
- ❖ **Maximum altitude:** 28 masl
- ❖ **Approximate duration:** 2 hours
- ❖ **Difficulty:** Low

Enjoy a beautiful and lonely spot, just a few meters away, and within our facilities. The trail starts 500 meters from the entrance of our accommodations, bordering Lake Toro in all its splendor: deep reflections and glare, and striking blue colors changing every minute.

After approximately a 40 minutes trek you will arrive to the base of the Toro Waterfall, which is surrounded by native woods, and lush vegetation, and accompanied by a variety of birds perched to watch the passing of walkers.

From this isolated place you can take beautiful pictures from yet another perspective of the Paine Massif, Cuernos, Sierra and Lake Toro, as well as from our luxury yurts.

This hike gives you the opportunity to experience a unique location, or to share one of Patagonia Camp suggested romantic getaways.

Patagonia Camp offers you the opportunity to fish in the magnificent Toro Lake, located literally at the foot of our accommodations, within walking distance of each yurt.

With its 250 square kms Lake Toro is one of the most extensive lakes of the Magellan region. Its irregular geography provides numerous islets, bays and river mouths, making this an essential destination for fishing enthusiasts who visit the Chilean Patagonia.

Mainly Brown and Rainbow trouts - with a weight ranging from 1 kg to 8 kgs - can be found in this area. Fishing is from the bank, in the eco-friendly "catch and release" mode that allows trouts to complete their natural cycle, tracing the Serrano River and to their spawning ground.

❖ **Approximate duration:** 3 hours

❖ **Difficulty:** Low

You're invited to enjoy a real Patagonian experience, a special and unforgettable journey in the company of *gauchos*, people who live and breathe this area, one of the world's most stunning places.

The horse ride will take you along the slopes of Cerro Tenerife, where you can enjoy the beautiful view of Torres del Paine Massif,. The tour combines bonding with powerful animals, amidst stunning flora and fauna and in a windy setting, but knowing you're accompanied by experienced guides and *gauchos*.

On windy days the horse ride will pass through the shores of lakes Porteño and Maravilla Lake, from where you can appreciate an immense and colorful scenery that highlights the solitude of Patagonia and its people. This tour explores paths rarely visited and offers a true adventure.

* This excursion is not included in our all inclusive programs and has an additional cost.

❖ **Approximate duration:** 3 hours

❖ **Difficulty:** Low

Navigation to the Grey Glacier is indeed one of the most captivating excursions of the National Park Torres del Paine. This 3-hour cruise on board the boat Grey II allows everyone to appreciate a unique combination of landscape, lush vegetation and dramatic mountains.

You will depart towards Portería Grey, point from where you will start a 20 minutes walk through a Lenga wood, until boarding the Grey II. The ship has an indoor main cabin accommodating 50 passengers, as well as an outdoor deck.

* This excursion is not included in our all inclusive programs and has an additional cost

SERRANO & BALMACEDA GLACIER NAVIGATION + SERRANO RIVER

The trip starts from Patagonia Camp to Puerto Natales where you will board a catamaran cruising the Señoret Canal towards Mount Balmaceda. Well into the Señoret canal you will come up to Guanaco island where frequent sightings of small, pretty, Magellanic dolphins can be expected.

From there bird watching continues, this time it is about cormorans on a renowned cliff, where you can find them stretching their wings and exposing them to the wind. You will also be able to watch sea lions, gaze at waterfalls, and catch sight of condors.

Your trip will continue towards Mount Balmaceda where you will come across the glacier of the same name, landing afterwards at Puerto Toro. From there you will take a stroll towards the Serrano glacier. The round trip should take you about 1 hour.

You will also walk along the shore of Laguna Témpanos (Iceberg Pond) in the company of our bilingual guide. You will pass through a native tree forest, whose main species are the Coigüe (or Magellanic Beech), Ñirre (Antarctic Beech) and Ciruelillo (Embothrium Coccineum). Our passengers will have the opportunity to enjoy an impressive vegetation, in contrast with a clean sky, and impressive icebergs, all this against the spectacular backdrop of the Serrano glacier.

Once getting to the Serrano river, you will be correctly equipped to board a zodiac boat, giving you yet some more outstanding views of the Paine massif and surrounding woods.

Upon arrival at Puerto Chaitén, a Patagonia Camp van will be waiting to take you back to the Camp.

* This excursion is not included in all -inclusive programmes and bears an additional cost.
