Generate more sales with Xiris Weld Cameras

As your customers move to automated welding processes, you want to be there to meet the demand. Now you can by offering Xiris' Weld Cameras that help your customers make their welding operations more productive, while delivering better margins for you.

Our cameras can help you sell more profitable gas mixtures, wires, spare parts and services by demonstrating how your products improve the quality of the welding arc for your customers.

Xiris Weld Cameras increase productivity for your customers and offer these big benefits:

- + Improving welding processes and quality
- + Reducing labor and wastage costs
- + Improving the error detection rate
- + Promoting a safer, healthier work environment

Our Weld Cameras are the right choice for customers who want the best visual monitoring tools for their manufacturing or fabricating operations.
