PCM Helps Uncover the Unknown Costs of Printing

Managing and maintaining your imaging fleet is frustrating and time consuming. This doesn't have to be your problem anymore. Free yourself from printing devices with **PCM™** from QLS Solutions Group.

With a simple secure download, we can collect real time data from your printing devices and uncover ways to manage and optimize your print technology from an easy to use web interface. Partner with us to develop a more efficient and productive print management strategy.

Powerful Information About Your Printing Environment Available in Real-Time

PCM™ collects critical information from your networked printers, copiers, MFPs and fax machines, such as:

- Device Status
- Supplies Status / Levels
- Page Counts
- Model Descriptions
- IP Addresses
- Serial and Asset Numbers
- Physical Device Locations
- Cost-per-Page Tracking
- Automated Service Alerts
- Utilization
- Historical Trending Reports

... and more!

Did You Know...

... that 40% of all IT/Help Desk calls are printer/copier related?

... the average printing device is in an error state 55% of the time?

Let PRINT•COPY•MANAGE™ from QLS Solutions Group Show You The Way To Controlling Printing Costs and Increasing Printing Efficiencies.

PCM™ remote print management technology collects powerful information and allows us to provide the ultimate solution for managing and maintaining your printing environment. Partner with us to collaborate on a print management plan of action that works for you.

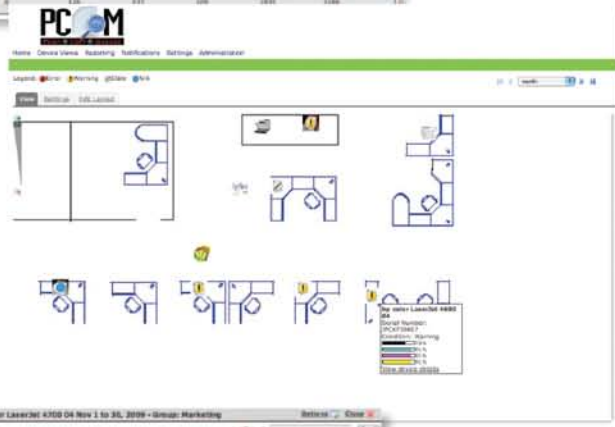

Detail Device Report

Information IS Power

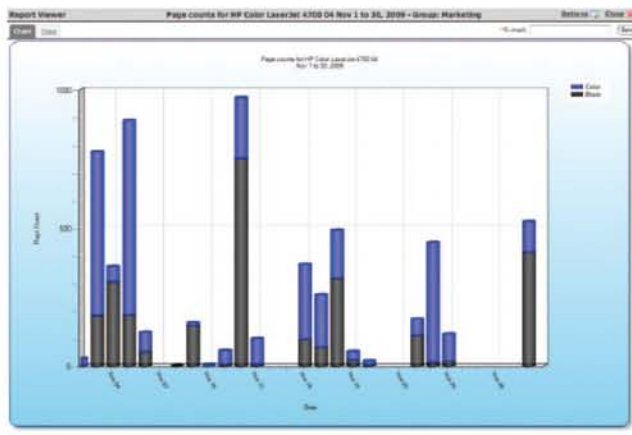

Just think how it easy it will be to manage your print environment with all this information...

- Advanced Volume Reports

- Individual Toner Levels
- Introduction Date vs. Page Count
- Flag Reporting
- Power Usage Reports
- Fleet & Device Utilization Reports
- Meter Collection Reports for Reconciling Copier Meter Billings
- Device Location Mapping
- Simple Meter Read Display
- Device Display & Error Reports
- Device Coverage & Utilization
- Supplies Re-ordering

... and more!

Device Location Mapping

Page Count Reports

Did You Know...

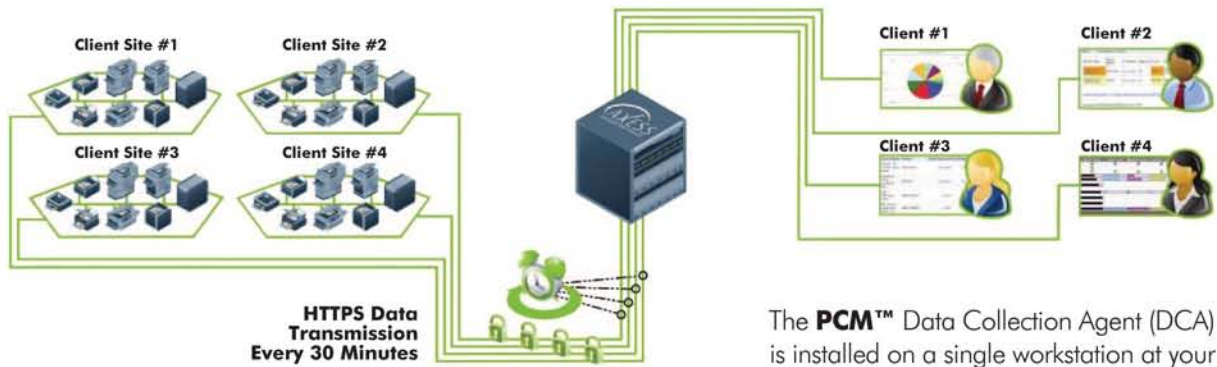

- ... that the average employee spends \$15,000 per year in document output?
- ... the cost of office printing continues to increase each year due to higher page volumes and increased use of color devices?

What are You Waiting For?

Contact QLS Solutions Group today to learn more about the business benefits of **PCM™**. Call us toll-free at **800.859.2203**

Secure and Reliable Technology

The **PCM™** Data Collection Agent (DCA) is installed on a single workstation at your location in under 5 minutes.

The DCA runs as a Windows® service in the background, collecting and transmitting critical imaging metrics to the **PCM™** secure web server. From then on, your printer information will be available 24 hours a day, 7 days a week via the **PCM™** secure website.

No personal or user data is collected with the software; only the core metrics needed to maintain and manage your printing assets are gathered.

System / Network Requirements

- TCP/IP configured
- Port 443 (HTTPS), Port 80 (HTTP), or Port 21 (FTP) must be open for automatic transmission of data
- Hardware: Desktop computer system
- Network Card: 100MB or higher
- Operating System: Windows 2000/XP
- RAM: 256MB or higher
- Internet connected browser with a minimum of 100MB NIC
- System must be powered on all the time
- Does not have to be a dedicated system

Let PCM from QLS Show You The Way To Controlling Printing Costs & Increase Printing Efficiencies.
