GO DIGITAL

DYNAMIC, DIGITAL READING INTERVENTION:
ACCELERATE READING GROWTH AND STUDENT ENGAGEMENT

Edplicity is a cloud-based content-management system that helps teachers and students collaborate, organize, and seamlessly share content. It is designed to improve instruction and increase student achievement through a technology platform that organizes instructional materials, tags them to standards, and encourages engagement and interaction through social learning features. Edplicity empowers teachers to use computers and tablets to deliver both *Voyager Passport* and *Passport Reading Journeys* instruction digitally, which engages students, simplifies differentiation, and accelerates literacy growth.
