

happy customers, higher profits!

“Working with the RMS system has absolutely made a huge difference in how we do business. We have been able to take complete control of our store’s front end. Instead of creating headaches for staff members as we did with our old system, we are able to use the RMS tools quickly and efficiently. We are especially proud of our loyalty program – it has just exploded in our 3 stores. Being able to give something back to the customers is a win-win situation, and they love it.

Overall, our efficiency has increased across the board. Our ability to manage inventory across the stores has been invaluable.

We also have great relationships with members of the RMS customer service staff. They are attentive, helpful, and more than happy to stick with us until a problem is solved. Best of all, they work well with whomever in my organization calls. It saves me time.”
