CUSTOM PARTS MANUFACTURING

For over two decades, Deltec has established a reputation among equipment manufacturers as the premier partner for precision component parts manufacturing.

- ▲ Specialist in stainless steel and steel parts manufacturing
- ▲ Single, reliable source for high quality parts across lot runs, through our comprehensive, in-house capabilities
- ▲ Experienced craftsmanship using advanced technologies
- ▲ Quick, accurate parts turn around, through flexible scheduling
- ▲ Partnering to provide the best solution for your part design

## CUSTOM FABRICATION

By combining our high powered laser capabilities with the latest CNC bending, punching and machining technology ... we are able to consistently provide you with precision fabrications.

- ▲ Small or large lot runs
- ▲ Avoid edge cleanup cost and improve weldability on stainless steel with nitrogen shielded (clean-cut) laser-cutting
- ▲ Reduce part cost by laser-cutting instead of machining (clean-cut stainless steel to 3/8", mild steel to 5/8")
- ▲ Lower finishing costs through laser-cut accuracy
- ▲ Minimize assembly costs with tab and slot part design
- ▲ High precision and accuracy

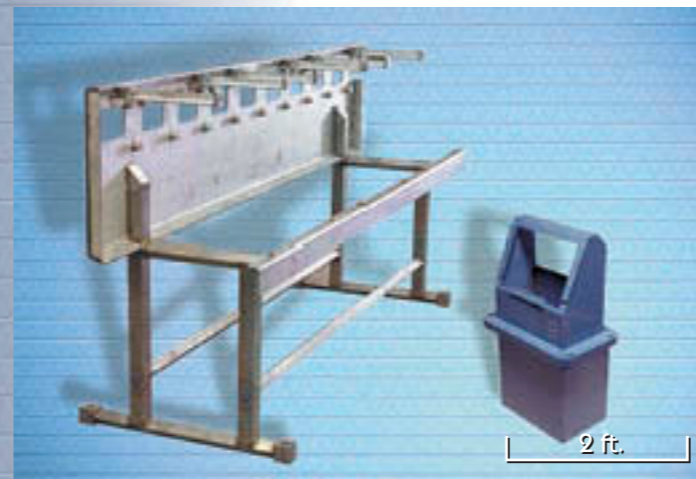

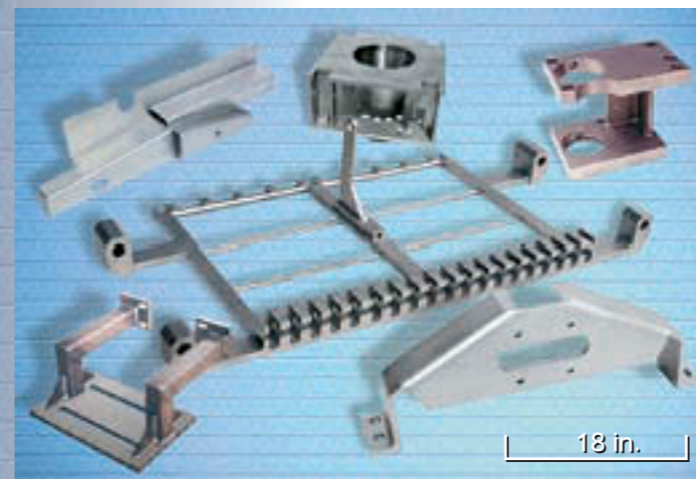

## PRECISION WELDMENTS

Your precision weldments are not a problem at Deltec. We specialize in producing accurate, T.I.G. and M.I.G. weldments across production runs.

Minimize post welding operations through precision T.I.G. & M.I.G. welding on:

- ▲ Conveyor frames
- ▲ Hoppers, boxes and tanks
- ▲ Mounting plates
- ▲ Guards and covers
- ▲ Machined weldments
- ▲ Electrical and mechanical enclosures
- ▲ Sheet metal weldments and assemblies

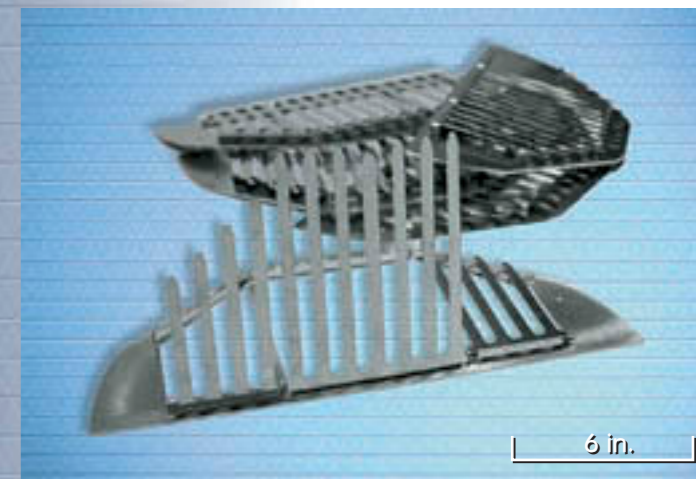

## CUSTOM PRODUCTS

Few parts suppliers have either the capacity or the capabilities to manufacture custom products – just one more case where you'll find that Deltec is different.

Whether starting from scratch to bring a new product to life, looking for ways to refine existing products, or developing manufacturing process improvements through fixtures ... we have the expertise to help.

- ▲ Hands on design-to-fabrication experience
- ▲ Quick innovative solutions to enhance your product quality and performance
- ▲ Rapid design capabilities save time and money
- ▲ Your single source for everything from prototyping to production

# A Message From The President

Welcome!

Thank you for taking a moment to familiarize yourself with Deltec, Inc. I hope that what you see and read here will encourage you to learn more about our manufacturing capabilities and state-of-the-art technologies.

Of course, we're not the only company able to provide these services. But I believe you'll find that our business philosophies ... our dedicated staff ... and our unparalleled commitment to total customer satisfaction make Deltec stand out from the pack.

Honesty. Integrity. Quality. These are the principles on which Deltec was founded in 1973 – and they remain the cornerstones of our approach to business today.

Whether you're seeking a partner for precision fabrication of stainless steel parts ... design engineering process support ... or innovative solutions for custom products, you simply will not find a higher commitment to quality and timely delivery.

On that you have my word.

Sincerely,

Chris Dugle  
President
