

ASHI Basic First Aid

ASHI *Basic First Aid* was created to help students develop basic first aid knowledge, skills, and the confidence to respond. The program is an excellent choice for both the community and workplace setting, and conforms to the 2015 AHA and ARC Guidelines Update for First Aid.

Intended audience

Individuals who are not healthcare providers or professional rescuers but desire or are required to be certified in basic emergency medical care.

Class configurations

- Max student to instructor ratio: 10 to 1
- Recommended student to equipment ratio: 3 to 1

ASHI-approved training materials

- ASHI Basic First Aid Student book (one per participant, print or digital)
- ASHI Basic First Aid Instructor Guide (one per Instructor, print or digital)
- ASHI Basic First Aid media presentation (program video, PowerPoint®, or computer/online blended class)

Digital Resources

- Streaming video player
- Create custom playlists
- Updated user interface for blended learning platform
- Customizable blended learning playlists
- Pre-built digital Performance Evaluations
- Track past, present, and future classes with Otis
- New mobile app, including offline mode

Recognized certification period

Up to 2 years

Successful completion (certification)

- *Written evaluation:* Required when specified by organizational, local, or state regulation.
- *Performance evaluation:* All students must perform required skills competently without assistance.

Recommended time to complete

- *Initial training:* 2.5-3 hours
- *Renewal training:* Less than initial instructional time

Times based on core-topics only. Adding supplemental topics will add to the overall class time.

ASHI Basic First Aid
