

Heat Pumps with Puron® Refrigerant 25HBB3 / 25HBB4

Turn to the Experts.™

Energy Efficient Heat Pumps with up to 14.0 SEER and 8.0 HSPF

Efficiency

Because heat pumps provide both heating and cooling, their efficiency is measured with two distinct ratings. While in the cooling mode, heat pumps receive a Seasonal Energy Efficiency Ratio or SEER number. SEER is like gas mileage. The higher the gas mileage or SEER, the more efficient the automobile or system is. Most new heat pumps rate between 13.0 and 19.0 SEER.

While in the heating mode, heat pumps also receive a Heating Seasonal Performance Factor or HSPF rating. Again, the higher the number, the more efficiently the system works. Most new units have ratings between 7.7 and 9.0 HSPF.

- As an ENERGY STAR® partner, Carrier Corporation has determined that the 25HBB3 and 25HBB4 heat pumps that achieve system combinations of 14.0 SEER, 8.2 HSPF and 11.5 EER or higher meet the ENERGY STAR® guidelines for energy efficiency.

Things to Consider Before You Buy

Puron® Refrigerant

Puron refrigerant is environmentally sound and won't deplete the ozone layer.

Carrier® introduced Puron refrigerant a full six years ahead of the competition, paving the way for the future. The Clean Air Act of 1990 prohibits the production of HCFC-based air conditioners and heat pumps by 2010, and bans Freon®-22* production by 2020. As Freon® production reduces, its cost is predicted to increase.

Freon®-12 in the automotive industry increased by a whopping 800% in a short seven years following its phase-out!

Ensure your cooling costs by investing in systems with Puron refrigerant — environmentally sound, efficient and dependable refrigerant designed for the future.

Carrier 25HBB3 and 25HBB4 heat pumps with Puron refrigerant deliver excellent reliability and proven performance.

Comfort

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. Your Carrier dealer can help you choose the best system for your home including Carrier-exclusive features that further enhance your indoor environment.

- Carrier HYBRID HEAT® Dual Fuel Systems deliver peace of mind to homeowners concerned about the unpredictable nature of utility costs. HYBRID HEAT Dual Fuel System pairs a gas furnace with an electric heat pump to provide comfort, economy and flexibility. Your Carrier HYBRID HEAT Dual Fuel System will automatically switch between electric and gas

heating as needed to keep your home comfortable all winter long while optimizing the efficiencies of each fuel source. And, because the heat pump also delivers cool comfort when it's hot outside, your HYBRID HEAT

Dual Fuel System is a complete, year-round indoor comfort solution. Ask your Carrier dealer if HYBRID HEAT Dual Fuel System is right for you.

Greater Operational Efficiency

Carrier's 25HBB3 and 25HBB4 heat pumps are available with efficiency ratings of 13.0 and 14.0 SEER when cooling and up to 8.0 HSPF when heating. For every \$100 spent to cool your home using a 10.0 SEER heat pump, a 14.0 SEER heat pump should cost you approximately \$71. Actual savings will depend on the efficiency of your current system compared to the efficiency of a new system.

Operating cost estimate based on a 3-ton system.

Technology

Puron® refrigerant - environmentally sound and won't deplete the ozone layer.

- 1 Aerodynamic top** – enhances airflow through the outdoor unit, and reduces noisy turbulence.
- 2 Compressor** – the heart of the heat pump, the compressor pumps refrigerant through the system.
- 3 WeatherArmor™ protection package** – combines design elements that protect your comfort:
 - a. Galvanized steel cabinet
 - b. Heavy-duty wire coil guard protection
- 4 Copper Microtube™/aluminum fin coil** – transfers heat outside to maximize indoor cooling while resisting corrosion.
- 5 Filter drier** – constantly filters the refrigerant to remove moisture or other contaminants that can harm your heat pump system.
- 6 High-pressure and loss-of-charge switches** – protect the system from extreme conditions.

Warranty

Carrier® 25HBB3 and 25HBB4 heat pumps are protected by a five-year limited warranty on the compressor and a five-year limited warranty on the entire unit. Extended warranties are also available. Ask your Carrier dealer for details.

Commercial use three-phase models carry a five-year limited warranty on the compressor and a one-year limited warranty on all other parts.
